Devos Freedom Of Choice 33 1 Or 3:

School Choice and the Betrayal of Democracy Robert Asen, 2021-10-04 Evidence shows that the increasing privatization of K 12 education siphons resources away from public schools resulting in poorer learning conditions underpaid teachers and greater inequality But as Robert Asen reveals here the damage that market based education reform inflicts on society runs much deeper At their core these efforts are antidemocratic Arguing that democratic communities and public education need one another Asen examines the theory driving privatization popularized in the neoliberalism of Milton and Rose Friedman as well as the case for school choice promoted by former secretary of education Betsy DeVos and the controversial voucher program of former Wisconsin governor Scott Walker What Asen finds is that a market based approach holds not just a different view of distributing education but a different vision of society When the values of the market choice competition and self interest shape national education that policy produces individuals Asen contends with no connections to community and no obligations to one another The result is a society at odds with democracy Probing and thought provoking *School Choice and the Betrayal of Democracy* features interviews with local on the ground advocates for public education and offers a countering vision of democratic education one oriented toward civic relationships community and equality This book is essential reading for policymakers advocates of public education citizens and researchers *The Choice We Face*

Jon Hale, 2021-08-10 A comprehensive history of school choice in the US from its birth in the 1950s as the most effective weapon to oppose integration to its lasting impact in reshaping the public education system today Most Americans today see school choice as their inalienable right In *The Choice We Face* scholar Jon Hale reveals what most fail to see school choice is grounded in a complex history of race exclusion and inequality Through evaluating historic and contemporary education policies Hale demonstrates how reframing the way we see school choice represents an opportunity to evolve from complicity to action The idea of school choice which emerged in the 1950s during the civil rights movement was disguised by American rhetoric as a symbol of freedom and individualism Shaped by the ideas of conservative economist Milton Friedman the school choice movement was a weapon used to oppose integration and maintain racist and classist inequalities Still supported by Democrats and Republicans alike this policy continues to shape American education in nuanced ways Hale shows from the expansion of for profit charter schools and civil rights based reform efforts to the appointment of Betsy DeVos Exposing the origins of a movement that continues to privilege middle to upper class whites while depleting the resources for students left behind *The Choice We Face* is a bold definitive new history that promises to challenge long held assumptions on education and redefines our moment as an opportunity to save it a choice we will not have for much longer **Cumulated Index**
