Contesting The Commons Privatizing Pastoral Lands In Kenya:

Contesting the Commons Carolyn K. Lesorogol, 2008 Examines the highly disputed idea of privatizing communal land through one Samburu community **Contesting the Commons** Carolyn K. Lesorogol, 2008 Examines the highly disputed idea of privatizing communal land through one Samburu community *Does Commons Grabbing Lead to Resilience Grabbing? The Anti-Politics Machine of Neo-Liberal Development and Local Responses* Tobias Haller, Fabian Käser, Mariah Ngutu, 2021-01-06 This Special Issue contributes to the debate on land grabbing as commons grabbing with a special focus on how the development of state institutions formal laws and regulations for agrarian development and compensations and voluntary corporate social responsibility CRS initiatives have enabled the grabbing process It also looks at how these institutions and CSR programs are used as development strategies of states and companies to legitimate their investments This Special Issue includes case studies from Kenya Morocco Tanzania Cambodia Bolivia and Ecuador analysing how these strategies are embedded into neo liberal ideologies of economic development We propose looking at James Ferguson s notion of the Anti Politics Machine 1990 that served to uncover the hidden political basis of state driven development strategies We think it is of interest to test the approach for analysing development discourses and CSR policies in agrarian investments We argue based on a New Institutional Political Ecology NIPE approach that these legitimize the institutional change from common to state and private property of land and land related common pool resources which is the basis of commons grabbing that also grabbed the capacity for resilience of local people **Livelihood and Landscape Change in Africa: Future Trajectories for Improved Well-Being under a Changing Climate** Sheona Shackleton, Paul Hebinck, Chinwe Ifejika Speranza, Vanessa Masterson, Dian Spear, Maria Tengö, 2019-10-08 This book is based on a Special Issue of the journal LAND that draws together a collection of 11 diverse articles at the nexus of climate change landscapes and livelihoods in rural Africa all explore the links between livelihood and landscape change including shifts in farming practices and natural resource use and management The articles which are all place based case studies across nine African countries cover three not necessarily mutually exclusive thematic areas namely smallholder farming livelihoods under new climate risk five articles long term dynamics of livelihoods and landscape change and future trajectories two articles and natural resource management and governance under a changing climate spanning forests woodlands and rangelands four articles The commonalities key messages and research gaps across the 11 articles are presented in a synthesis article All the case studies pointed to the need for an integrated and in depth understanding of the multiple drivers of landscape and livelihood change and how these interact with local histories knowledge systems cultures complexities and lived realities Moreover where there are interventions such as new governance systems REDD or climate smart agriculture it is critical to interrogate what is required to ensure a fair and equitable distribution of emerging benefits *Conservation and Community in Kenya* Carolyn K. Lesorogol, 2022-06-06 Community based wildlife conservation is promoted as a win win solution for wildlife and people

that protects biodiversity while improving the economic status of communities living among wildlife This book based on mixed method anthropological research conducted in Samburu County Kenya demonstrates that counter to simple narratives promising benefits community based wildlife conservancies CBCs are complex social institutions layered on pre existing land use practices with differential impacts for members Through in depth research in three communities Carolyn K Lesorogol explains how diverse social actors understand and operate CBCs how benefits and costs are distributed the gendered nature of CBCs and how they impact cooperation and conflict in communities Lesorogol s analysis shows that economic benefits to members are generally very limited and while many perceive improvements in security emanating from CBCs there is also evidence that they heighten tensions over land use as well as human wildlife conflict Looking toward the future the book includes recommendations for improving the effectiveness and accountability of CBCs Conservation and Community in Kenya Milking the Elephant offers critical insights into the implications of the CBC model for local pastoralist livelihoods conservation and social relations *Global Trends in Land Tenure Reform* Caroline Archambault,Annelies Zoomers,2015-02-11 This book explores the gendered dimensions of recent land governance transformations across the globe in the wake of unprecedented pressures on land and natural resources These complex contemporary forces are reconfiguring livelihoods and impacting women s positions their tenure security and well being and that of their families Bringing together fourteen empirical community case studies from around the world the book examines governance transformations of land and land based resources resulting from four major processes of tenure change commercial land based investments the formalization of customary tenure the privatization of communal lands and post conflict resettlement and redistribution reforms Each contribution carefully analyses the gendered dimensions of these transformations exploring both the gender impact of the land tenure reforms and the social and political economy within which these reforms materialize The cases provide important insights for decision makers to better promote and design an effective gender lens into land tenure reforms and natural resource management policies This book will be of great interest to researchers engaging with land and natural resource management issues from a wide variety of disciplines including anthropology sociology development studies and political science as well as policy makers practitioners and activists concerned with environment development and social equity **Handbook of Social Justice in the Global South** Nikhil Deb,Manjusha Nair,Glenn W. Muschert,2025-03-12 This timely Handbook explores social justice in the Global South in an era of planetary crisis and shifting global dynamics Presenting the Global South as a space of belonging and resistance to the hegemony of global capitalism it identifies how to reimagine transformative futures for a just world **Researching Institutions in Natural Resource Governance** Fiona Nunan,2024-12-06 This book presents an overview of different data collection methods and approaches that have been used to identify and analyse institutions associated with natural resource governance Institutions as rules of the game are fundamental to the management governance and use of renewable natural

resources such as fisheries forests and water Yet researching institutions particularly informal institutions can be challenging as they can be difficult to identify investigate and understand This volume tackles this challenge head on The innovative collection brings together contributions from different disciplines and traditions reporting and reflecting on a range of qualitative and quantitative research methods and experiences The book begins by reviewing definitions and typologies of institutions and introduces different approaches to researching institutions in natural resource governance namely the Bloomington School associated with Elinor Ostrom and Critical Institutionalism Following this each chapter provides an overview and example of application of research approaches and methods including mixed methods institutional grammar fuzzy cognitive mapping network analysis assemblage and ethnography The concluding chapter identifies key insights into institutions and lessons on researching institutions From these the chapter provides a set of observations on researching institutions in natural resource governance with the aim of providing guidance for new and experienced researchers The volume provides an essential introduction for students and researchers into the range of methods and approaches and their practical application that can be used to research institutions associated with natural resource governance

Production, Consumption, Business and the Economy Donald C. Wood, 2014-09-05 This volume is divided into four main sections these focus on commodities and their social meanings anthropological investigation of business systems and practices the economic importance of productive land in culture and society and a showcase of new research on the economic anthropology of Latin America

Poetry & Commons Daniel Eltringham, 2022-05-13 Winner of the ASLE UKI Book Prize 2023 The commons and enclosure are among the most vital ways of thinking about poetry today posing urgent ecological and political questions about land and resource ownership and use Poetry Commons is the first study to read postwar and contemporary poetry through this lens by putting it in dialogue with the Romantic experience of agrarian dispossession Employing an innovative transhistorical structure the book demonstrates how radical Anglophone poetries since 1960 have returned to the enclosure of the commons in response to political and ecological crises It identifies a commons turn in contemporary lyric that contests the new enclosures of globalized capital and resource extraction In lucid close readings of a rich field of experimental poetries associated with the British Poetry Revival as well as from Canada and the United States it analyses a landscape poetics of enclosure in relationship with Romantic verse Canonical Romantic poetry by Wordsworth and Clare is understood through the fine grain textures of the period s vernacular and radical verse and discourse around enclosure which the book demonstrates contain the seeds of neoliberal political economy Engaging with the work of Anne Lise Fran ois and Anna Tsing Poetry Commons theorizes commoning as marking out subsistence rhythms of resource which articulate plural irregular and tentative relations between human and nonhuman lifeworlds
