City of Women David R. Gillham, 2013-05-07 Hiding her clandestine activities behind the persona of a model Nazi soldier's wife at the height of World War II Sigrid Schroeder dreams of her former Jewish lover and risks everything to hide a mother and two young children who she believes might be her lover's family

CITY OF WOMEN Christine Stansell, 2012-12-19 In this brilliant and vivid study of life in New York City during the years between the creation of the republic and the Civil War a distinguished historian explores the position of men and women in both the poor and middle classes the conflict between women of the laboring poor and those of the genteel classes who tried to help them and the ways in which laboring women traced out unforeseen possibilities for themselves in work and in politics Christine Stansell shows how a new concept of womanhood took shape in America as middle class women constituted themselves the moral guardians of their families and of the nation while poor workingwomen cut adrift from the family ties that both sustained and oppressed them were subverting through their sudden entry into the working and political worlds outside the home the strict notions of female domesticity and propriety of woman's place and woman's nature that were central to the flowering and the image of bourgeois life in America Here we have a passionate and enlightening portrait of New York during the years in which it was becoming a center of world capitalist development years in which it was evolving in dramatic ways becoming the city it fundamentally is And we have as well a radically illuminating depiction of a class conflict in which the dialectic of female vice and virtue was a central issue City of Women is a prime work of scholarship the first full scale work by a major new voice in the fields of American and urban history

The City of Women Ruth Landes, 1994 This book is the landmark study of candomblé the Afro-Brazilian religion of Bahia Brazil

Violence in the City of Women Sarah Hautzinger, 2007-09-17 Brazil's innovative all female police stations installed as part of the return to civilian rule in the 1980s mark the country's first effort to police domestic violence against women Sarah J. Hautzinger's vividly detailed accessibly written study explores this phenomenon as a window onto the shifting relationship between violence and gendered power struggles in the city of Salvador da Bahia Hautzinger brings together distinct voices unexpectedly macho policewomen the battered women they are charged with defending indomitable Bahian women who disdain female victims and men who grapple with changing pressures related to masculinity and honor What emerges is a view of Brazil's policing experiment as a pioneering and potentially radical response to demands of the women's movement to build feminism into the state in a society fundamentally shaped by gender

in human evolution Biology Anthropology and Paleontology all teach that whenever a species is presented with a deadly stress it must overcome it evolve around it or go extinct At this point in history mankind is an endangered species headed for sure extinction unless a truly effective cure or prevention for AIDS is discovered and then distributed world wide At the same time genetic experiments and gene therapies are probing deeper into medical realms once reserved to Providence The likelihood of an artificial genetic change to the human race grows greater every day It is very possible almost probable that a genetically distinct race of human beings defined by Biology as a new species may appear among us at any time *Urban Rehearsals and Novel Plots in the Early American City* Betsy Klimasmith,2021-11-04 *Urban Rehearsals and Novel Plots in the Early American City* sheds new light on the literature of the early US by exploring how literature theatre architecture and images worked together to allow readers to imagine themselves as urbanites even before cities developed In the four decades following the Revolutionary War the new nation was a loose network of nascent cities connected by print Before a national culture could develop local city cultures took shape literary texts played key roles in helping new Americans become city people Drawing on extensive archival research *Urban Rehearsals* argues that literature particularly novels and plays allowed Bostonians to navigate the transition from colonial town to post revolution city enabled Philadelphians to grieve their experiences of the 1793 Yellow Fever epidemic and rebuild in the epidemic s aftermath and showed New Yorkers how the domestic practices that reinforced their urbanity could be opened to the broader public Throughout attention to underrepresented voices and texts calls attention to the possibilities for women immigrants and Black Americans in developing urban spaces while showing how those possibilities would be foreclosed as the nation developed Balancing attention to canonical texts of the early Republic including *The Power of Sympathy* Charlotte Temple and Benjamin Franklin s Autobiography with novels whose depiction of early cities deserves greater attention such as *Ormond* *The Boarding School* *Monima* and *Kelroy* this volume shows how US cities developed on the pages and stages of the early Republic building urban imaginations that would construct the nation s early cities **Streetwalking the Metropolis : Women, the City and Modernity** Deborah L. Parsons,2000-03-02 Can there be a flaneuse and what form might she take This is the central question of *Streetwalking the Metropolis* an important contribution to ongoing debates on the city and modernity in which Deborah Parsons re draws the gendered map of urban modernism Assessing the cultural and literary history of the concept of the flaneur the urban observer writer traditionally gendered as masculine the author advances critical space for the discussion of a female flaneuse focused around a range of women writers from the 1880 s to World War Two Cutting across period boundaries this wide ranging study offers stimulating accounts of works by writers including Amy Levy Dorothy Richardson Virginia Woolf Rosamund Lehmann Jean Rhys Janet Flanner Djuna Barnes Anais Nin Elizabeth Bowen and Doris Lessing highlighting women s changing relationship with the social and psychic spaces of the city and drawing attention to the ways in which the perceptions and experiences of the street are translated into the dynamics of literary texts
