Cities, Autonomy, and Decentralization in Japan Carola Hein,Philippe Pelletier,2006-09-27 Adding a new perspective to the current literature on decentralization in Japan Cities Autonomy and Decentralization in Japan approaches the subject from an urban studies and planning approach The essays in the collection present a cogent compilation of case studies focusing on the past present and future of decentralization in Japan These include small scale development in the fields such as citizen participation machizukuri urban form and architecture disaster prevention and conservation of monuments The contributors suggest that new trends are emerging after the bursting of Japan s economic bubble and assess them in the context of the country s larger socio political system This in depth analysis of the development outside of Japan provides a valuable addition to students of Urban Asian and Japanese Studies *Routledge Handbook of Contemporary Japan* Hiroko Takeda,Mark Williams,2020-09-21 The Routledge Handbook of Contemporary Japan presents a synthesized interdisciplinary study of contemporary Japan based on up to date theoretical models designed to provide readers with a comprehensive and full understanding of the dynamics of contemporary Japan In order to achieve this the Handbook is organized into two parts Part I Foundations clarifies the state of contemporary Japan topic by topic by referring to the latest theoretical developments in the relevant disciplinary fields of politics international relations economy society culture and the personal Part II Issues then offers a series of concrete analyses building upon the theoretical discussions introduced in Part I to help undergraduate and postgraduate students learn how to conduct independent analysis Locating Japan in a comparative and interdisciplinary perspective this Handbook is an essential resource for students and scholars interested in Japanese studies Asian studies and global studies Marriage in Contemporary Japan Yoko Tokuhiko,2009-09-25 The phenomenon of bankonka postponement of marriage is increasingly reported in contemporary Japanese media clearly illustrating the changing patterns of modern lifestyles and attitudes towards marriage personal obligation and ambition This is the first book in recent years to explore the contemporary state of marriage in Japanese society Setting out the different perceptions and expectations of marriage in today s Japan the book discusses how economic issues and the family impact on marital behaviour Contrary to the views of some feminists that young women have no interest in improving their status and position this book argues that by delaying marriage and childrearing young women can be seen as rebels challenging Japanese patriarchal society Unlike many other studies it gives equal attention to male gender roles and masculinity exploring what constitutes being a real man in Japan through the analysis of mainstream and non mainstream conceptions of masculinity that co exist in contemporary Japan and considers the implications of such different roles for the institution of marriage It investigates the roles of wife and mother articulating why the strict division of labour defining men as breadwinners and women as homemakers became popular Moreover it describes the changing character of courtship relationships explaining why the norm has shifted from arranged marriages pre 1945 to love marriages after that period Finally it puts the Japanese experience into cross cultural

international context with a series of comparisons with marriage elsewhere both in Asia including in Korea and Hong Kong and in western countries such as France Sweden Italy and the United States

Political Reform in Japan argues that the quality of political leadership is the crucial determinant of whether parties in positions of dominance like the Liberal Democratic Party in Japan pass or reject policies such as electoral system and campaign finance reforms that could harm the party s future electoral chances By comparing successful reform drives led by Miki Takeo Ozawa Ichiro and Koizumi Junichiro with unsuccessful reform efforts pursued by Kaifu Toshiki Miyazawa Kiichi and Kono Yonhei Alisia Gaunder forces a reconsideration of the structure versus agency debate in political science and of the conventional wisdom on Japanese politics that consensus decision making norms and factional power balancing produce little in the way of political leadership

A New Japan for the Twenty-First Century Rien T. Segers,2008-03-13 Many people in the West portray Japan as being fixed in its ways and unable to change and consequently risking national decline and international loss of prestige However in fact Japan is at present in a significant transition period comparable to the Meiji Restoration of 1868 or the period immediately after the Second World War This transition period comes with a mixture of events and situations which are difficult to interpret both for foreign as well as domestic commentators and decision makers In this book a range of senior experts from inside Japan outline the many considerable changes currently taking place in a wide range of fields including the economy business and technology politics governance and international relations and a wide range of social issues the media the position of women nationalism and national consciousness and religion Overall the book provides a corrective to misplaced Western and Eastern views it aims to redirect stereotyped thinking about contemporary Japan both inside as well

as outside the country In addition it gives a summary overview of contemporary Japan its current changes and problems in short the inside story of the second strongest national economy in the world which is in the process of fundamental re engineering and which will continue to have a huge impact globally going forward
