## **Counter Space Counter Space:**

*Counter Space* Juliet Kinchin, Aidan O'Connor, 2011 Over the course of the past century the kitchen more than any other room in the modern dwelling has been the focus of intensive aesthetic and technological innovation Historically European and American kitchens were often drab poorly ventilated and hidden from view in a basement or annexe Towards the end of the 19th century however the kitchen became a central concern of modernism and a testing ground for new materials and technologies Since then the room has come to articulate and at times actively challenge society's relationships to food consumerism the domestic role of women and even international politics *Counter Space* examines the 20th century transformation of the kitchen through the collection of The Museum of Modern Art featuring a wide variety of design objects architectural plans posters archival photographs and artworks ranging from the iconic Frankfurt Kitchen massproduced for German public housing estates in the aftermath of World War I to an electric kettle heat resistant glassware and colourful plastics With an introductory essay by Juliet Kinchin this volume is a lively introduction to the kitchen as a barometer of changing technology aesthetics and ideology

**Power, State and Space** Marco Aliberti, Ottorino Cappelli, Rodrigo Praino, 2023-07-18 This book explains on what basis a nation can claim the status of space power what are the criteria differentiating a space power from lesser space actors and how their spacepower can be empirically measured and assessed To this end it sets forth a comprehensive multidisciplinary framework to enable a dynamic comparison of space actors and of the pathways that lead them in and out of the space powers club Drawing upon a critical review of the existing literature it conceptualises spacepower as a form of state power based on the complex interplay between the two defining dimensions of stateness namely the well studied dimension of capacity and the often neglected yet exceedingly important dimension of autonomy The book demonstrates that only actors possessing high levels of both autonomy and capacity qualify as space powers Different levels of either capacity or autonomy produce other types of space actors including skilled spacefarers self reliant spacefarers primed spacefarers and emerging space actors This innovative conceptual framework is complemented by an in depth comparative assessment that collects and processes a large amount of hard to find data on the most active global space actors and aggregates multiple indicators into a compound non hierarchical index of space power visualised in the form of a matrix

**Julia Alvarez** Kelli Lyon Johnson, 2005 This book provides the first book length examination of the writings of Julia Alvarez the author of *How the Garcia Girls Lost Their Accents* and nearly a dozen other books of fiction and non fiction and one of today's most widely read Latina writers Kelli Lyon Johnson perceptively illuminates the themes ideals and passions that unite these diverse and rich works all of which explore issues of understanding and representing identity within a global society Forced

by political oppression to leave the Dominican Republic when still young Alvarez has lived most of her adult life in the United States Johnson argues that through her narratives poetry and essays Alvarez has sought to create a cartography of identity in exile Alvarez inscribes a geography of identity in her work that joins theory and narrative across multiple genres to create a new map of identity and culture By asserting that she is mapping a country that is not on the map Alvarez places creativity and multiplicity at the center of this emerging cartography of identity Rather than elaborating a hybrid identity that surreptitiously erases distinctions and difference Alvarez embraces the mestizaje or mixture and accumulation of identities experience and diversity To Alvarez linguistic and cultural multiplicity represents the reality of what it means to be American and she offers a compelling vision of both self and community in which the homeland Alvarez seeks is the narrative space of her own writings As Johnson shows Alvarez will continue to shape American literature by stretching the literary cartography of identity and of the Americas
