Organizing and Advocacy Loretta Pyles, 2009-01-13 This interdisciplinary textbook offers a comprehensive view of the central issues facing progressive community organizers who seek to mobilize those negatively impacted by local national and global social policies and practices Intended for both undergraduate and graduate students in social work it aims to articulate the depth of the subject by introducing students to the philosophical political and sociological theories that inform community organizing and advocacy These topics are explored in detail through such examples as the labour movement environmental organizing feminist movements and faith based movements as a way to inform social work community practice The author emphasizes

the importance of a thorough understanding of why and how people get together to effect change in their own communities. Ongoing debates and controversies that face organizers and advocates in the social work profession are also considered. Each chapter includes relevant discussion questions for reflection as well as a list of useful books and websites for further inquiry. Also included are numerous case studies from community efforts in Post Katrina New Orleans, many of which the author has been involved in herself, providing a recent and widely recognized series of real world examples that will be easily accessible for students and professors around the world.

Progressive Community Organizing Loretta Pyles, 2013-07-24 The second edition of *Progressive Community Organizing* offers a concise intellectual history of community organizing and social movements while also providing practical tools geared toward practitioner skill building. Drawing from social constructionist, feminist, and critical traditions, *Progressive Community Organizing* affirms the practice of issue framing and offers two innovative frameworks that will change the way students of organizing think about their work. *Progressive Community Organizing* is ideal for both undergraduate and graduate courses focused on community theory and practice, community organizing, community development, and social change, and service learning. The second edition presents new case studies, including those of a welfare rights organization and a youth-led LGBTQ organization. There are also new sections on the capabilities approach, queer theory, the Civil Rights movement, and the practices of self-inquiry and non-violent communication. Discussion of global justice has been expanded significantly and includes an account of a transnational action research project in post-earthquake Haiti. Each chapter contains discussion questions, written and web resources, and a list of key terms. A full free access companion website is also available for the book.

Contesting Community James DeFilippis, Robert Fisher, Eric Shragge, 2010 What do community organizations and organizers do, and what should they do? *Contesting Community* addresses one of the vital issues of our day: the role and meaning of community in people's lives and in the larger political economy. It paints a more critical picture of community work, which, according to the authors, in both theory and practice has amounted to less than the sum of its parts. Their comparative study of efforts in the United States, the United Kingdom, and Canada describes and analyzes the limits and potential of this work.

Roots to Power Lee Staples, 2016-02-22 The third edition of the manual for community organizers tells readers how to most effectively implement community action for social change, clearly laying out grassroots organizing principles, methods, and best practices. Written for those who want to improve their own lives or the lives of others, this thoroughly revised how-to manual presents techniques groups can use to organize successfully in pursuit of their dreams. The book combines time-tested universal principles and methods with cutting-edge material addressing new opportunities and challenges. It covers basic concepts and best practices and offers step-by-step guidelines on things an organizer needs to know, such as how to identify issues, formulate strategies, set goals, recruit participants, and much more. The work focuses on six organizing arenas: turf, geography, faith-based, issue, identity, shared experience, and work-related. It offers new or expanded material addressing community

development use of social media internal organizational dynamics electoral organizing evaluation assessment and prevention of burnout for key leaders There are also nuts and bolts articles by experts who address topics such as action research lobbying legal tactics and grassroots fundraising Numerous case examples charts worksheets and small group exercises enrich the discussion and bring the material to life
