Conspiracy Theory Not Doug Spurling:

Conspiracy Theory...or Not Doug Spurling, 2015-11-29 It is good for you to read this alas it may cost me my life If I perish I perish The journal held secrets it needed to tell Why they showed me I do not know At first I did not believe it was true Now I do So will you Whoever tries to keep his life will lose it and whoever loses his life will preserve it Jesus My newest book is a short story about an old worn leather bound journal given to me by a stranger It s about a man who lost his wife and children yet prayed for them the rest of his life It s about a conspiracy that affects us all It s about spiritual warfare Although the story lands on the fiction shelf a little research will expose that many of the events and dates are historically accurate making the storyline plausible The golden thread that weaves the plot together comes from a belief in the strength of family the power of prayer and the battles that rage against them in that the story holds true Is it fact or fiction you decide *The Big Book of Conspiracies* Doug Moench, 1995 With an Introduction by Rev Ian Stang of the Church of the Subgenius Compiled by Doug Moench and 39 of the world s top comic artists this collection presents some of the world s weirdest conspiracy theories Did the Nazi Party help form the CIA Did aliens form the Nazi Party Are descendants of Jesus living in France Is Jim Morrison still alive The answers to these questions and many more may be found inside this book or then again not *The Stigmatization of Conspiracy Theory Since the 1950s* Katharina Thalmann, 2019 Are conspiracy theories everywhere and is everyone a conspiracy theorist This ground breaking study challenges some of the widely shared assessments in the scholarship about a perceived mainstreaming of conspiracy theory It claims that conspiracy theory underwent a significant shift in status in the mid 20th century and has since then become highly visible as an object of concern in public debates Providing an in depth analysis of academic and media discourses Katharina Thalmann is the first scholar to systematically trace the history and process of the delegitimization of conspiracy theory By reading a wide range of conspiracist accounts about three central events in American history from the 1950s to 1970s the Great Red Scare the Kennedy assassination and the Watergate scandal Thalmann shows that a veritable conspiracist subculture emerged in the 1970s as conspiracy theories were pushed out of the legitimate marketplace of ideas and conspiracy theory became a commodity not unlike pornography alluring in its illegitimacy commonsensical and highly profitable This will be of interest to scholars and researchers interested in American history culture and subcultures as well of course to those fascinated by conspiracies
