Constellation Drawings For Kids:

The Kids' Guide to the Constellations Christopher Forest, 2011-07 Describes various constellations including the myths surrounding them and how to locate them in the night sky Provided by publisher [Art Lab for Kids: Express Yourself](#)

Susan Schwake, 2018-11-20 Art Lab for Kids Express Yourself contains 52 brand new original art projects that will draw out each young artist as they discover their style document their thoughts and build confidence in their unique perspective Each lesson asks questions and offers personal choices while encouraging diverse approaches and creative thinking One of the most important gifts we can give children is to nurture their creativity and allow them to express themselves freely There s no better way to express yourself than through creative art projects This is especially true for children because it gives them an outlet to explore their developing interests and strengths The Colorful Beasts project which incorporates discussion of endangered animals with the Blue Rider art movement asks children to use torn colored tissue paper and glue to create an expressive representation of a favorite vulnerable animal In I Built This City children imagine and build their own cityscape using columns of newspaper text to make buildings on top of a watercolor painted background and detailed with marker Many projects include varying examples and executions of the activity to illustrate and reinforce the open ended nature of the labs inspiring children to embrace and share their own voice Give children the great gift of creative self exploration with Art Lab for Kids Express Yourself The popular Lab for Kids series features a growing list of books that share hands on activities and projects on a wide host of topics including art astronomy clay geology math and even how to create your own circus all authored by established experts in their fields Each lab contains a complete materials list clear step by step photographs of the process as well as finished samples The labs can be used as singular projects or as part of a yearlong curriculum of experiential learning The activities are open ended designed to be explored over and over often with different results Geared toward being taught or guided by adults they are enriching for a range of ages and skill levels Gain firsthand knowledge on your favorite topic with Lab for Kids

Little Learning Labs: Astronomy for Kids, abridged edition

Michelle Nichols, 2018-10-02 Little Learning Labs Astronomy for Kids teaches children the wonders of outer space with 26 hands on activities that can be done at home with items found around the house It s not easy to explain and understand what lies beyond the night sky This curated collection of 26 projects from the bestselling Astronomy Lab for Kids introduces children to the basics of outer space through 26 hands on labs that can be completed with everyday items from around your house It s the perfect resource for teachers homeschool families and community groups Mini astronomers will learn about things such as the size and scale of planets using sandwich cookies and tennis balls how to measure the speed of light with a flat candy bar and a microwave how to make a simple telescope with magnifying glasses and so much more Kids of all ages and experience levels will love completing these hands on labs with the guidance of adults Why wait to introduce children to the expansive wonder of the skies when Little Learning Labs Astronomy Lab for Kids can put it within their reach today

Astronomy Lab for Kids Michelle Nichols, 2016-10-01 Explore the wonders of the universe through hands on fun In Astronomy Lab for Kids science educator Michelle Nichols has compiled 52 labs and activities that use everyday materials from around the house to encourage kids their friends and their families to look up down and around at everything from the shadows on the ground to the stars in the sky Mini astronomers will learn about things such as the size and scale of planets using sandwich cookies and tennis balls how to measure the speed of light with a flat candy bar and a microwave how to make a simple telescope with magnifying glasses and so much more Kids begin their journey through the stars by creating a science journal to track their experiments and record their observations Foundational skills like how to make observations measure angles and determine directions are laid out first The lessons expand with explorations of size and scale light motion and gravity and then on to investigations of our Solar System and finding constellations in the night sky Each lab includes Time it will take to complete Materials list Safety tips and setup hints Step by step text and photos The science behind the fun Variations or ideas for taking the project further Children of all ages and experience levels will love the hands on activities and adults will love spending quality time learning with their kids or students The popular Lab for Kids series features a growing list of books that share hands on activities and projects on a wide host of topics including art astronomy clay geology math and even how to create your own circus all authored by established experts in their fields Each lab contains a complete materials list clear step by step photographs of the process as well as finished samples The labs can be used as singular projects or as part of a yearlong curriculum of experiential learning The activities are open ended designed to be explored over and over often with different results Geared toward being taught or guided by adults they are enriching for a range of ages and skill levels Gain firsthand knowledge on your favorite topic with Lab for Kids *Teaching Math with Favorite Picture Books* Judi Hechtman, Deborah Ellermeyer, Sandra Ford Grove, 1998 Provides literature based activities for teaching math to students in grades one through three each with activities reproducible patterns and recording sheets

Dare! Erin Frankel, 2013-07-24 Jayla feels threatened by her classmate Sam who has bullied her in the past for her nerdy love of astronomy and stars Sam is now bullying Jayla s friend Luisa and she enlists Jayla to participate Jalya reluctantly joins in but soon realizes it is wrong With the help of caring adults and friends Jayla comes to sympathize with Luisa and finds the courage to dare to stand up to Sam and put an end to the bullying The Weird Series These three books tell the story of an ongoing case of bullying from three third graders perspectives Luisa describes being targeted by bullying in Weird Jayla shares her experience as a bystander to bullying in Dare And in Tough Sam speaks from the point of view of someone initiating bullying Kids will easily relate to Luisa Jayla and Sam as each girl has her own unique experience eventually learning how to face her challenges with the help of friends peers and caring adults Part of the Bully Free Kids line

Night Sky Atlas Robin Scagell, Wil Tirion, 2005 A practical guide to binocular and small telescope observing Night Sky Atlas combines clear accurate star maps with reliable and informative text This is a highly practical atlas for beginning sky

gazers using binoculars or a small telescope Sturdy binding makes it suitable for outdoor use Cover flaps can be used as page markers The sewn binding allows the atlas to be opened flat The star maps are drawn with black stars on a white background allowing observers to pencil in their own observations The high quality paper can withstand repeated use of an eraser The book begins by presenting the whole sky in a series of six maps showing stars down to magnitude 5.5 all visible with binoculars or a small telescope Opposite each map is a photo realistic image that shows how the same portion of sky looks to the naked eye allowing less experienced observers to quickly find specific objects of interest The maps can be used for planning observations navigating from one part of the sky to another and for a quick reference guide Other features include Forty large scale constellation charts A full set of seasonal charts Maps of the Moon and the planets Deep sky maps identifying double stars nebula and more A comprehensive index provides the location of information for all the night sky objects and features covered in the atlas The Night Sky Atlas is the ideal portable reference for backyard astronomers

Constellations for Kids Donald Simpson, 2020-12-15 Constellations for Kids Star Constellations Book 24 Constellations Every Kid Should Know **Classical Mythology & More** Marianthe Colakis, Mary Joan Masello, 2007-01-01 Designed as an introduction to classical mythology for middle and high school students presents retellings of favorite myths sidebar summaries and review exercises with the answers at the back of the book [365 Fun Activities for Parents, Teachers, and Kids](#) Susan Ohanian, 1997 Children will be begging to learn with this exciting new activity book containing hundreds of entertaining projects based on fascinating facts true life events and worldwide celebrations Kids will have so much fun they'll forget they're learning math science history and more
