Counterspace William B. Scott, Michael J. Coumatos, William J. Birnes, 2011-08-02 What if North Korea detonates a nuclear weapon in space and silences dozens of satellites What if an Iranian missile threatens to destroy Israel while a Venezuelan research satellite endangers one of the US's most promising space initiatives What if tech savvy terrorist cells unleash back to back horrors in California while national leaders robbed of spy satellite imagery are forced to make blind decisions These are the scenarios of *Counterspace* a frighteningly plausible look at threats to the United States and the world Scott Coumatos and Birnes use war gaming scenarios to show how the US Strategic Command might use current and near future technology to prevent global disaster *Counterspace* is equally the revelation of a terrifying possibility and the hopeful affirmation that America will triumph in the face of danger

Counterspace William B. Scott, Michael J. Coumatos, William J. Birnes, 2009-10-13 Takes us to the front lines of the space and cyber security world A must read to preview how our national security future will unfold Gen Richard B Myers USAF Ret former Chairman Joint Chiefs of Staff In *Space Wars* Scott Coumatos and Birnes created a fascinating war gaming scenario of how World War III might unfold above the Earth's surface Now this thrilling team of writers reunites with *Counterspace* an even more chilling fictionalized look at America's most catastrophic fears What if North Korea detonated a nuclear weapon in space and silenced dozens of satellites What if an Iranian missile threatened to destroy Israel while a Venezuelan research satellite endangered one of the US's most promising space initiatives What if tech savvy terrorist cells unleashed back to back horrors in California creating an avalanche of crises overnight as national leaders robbed of spy satellite imagery were forced to make decisions in the blind These are the scenarios of *Counterspace* a frighteningly plausible look at threats to the United States and the world Scott Coumatos and Birnes use war gaming scenarios to show how the US Strategic Command might choose to fight off these menaces and prevent global disaster Combining current and future technology with our enemies grandest plans *Counterspace* is equally a terrifying possibility and a hopeful affirmation that America can and will be ready to face such dangers told with the pulse pounding power of a modern day thriller A page turning techno thriller the story reads like today's headlines faithfully taking the reader inside the minds of madmen heroes and space warriors Elliot Holokauahi Pulham Chief Executive Officer The Space Foundation

The Haunting of Twentieth-Century America William J. Birnes, Joel Martin, 2011-09-13 In this sequel to *The Haunting of America* national bestselling authors Joel Martin and William J Birnes bring up to the present the story of how paranormal events influenced and sometimes even drove political events In unearthing the roots of America's fascination with the ghosts goblins and demons that possess our imaginations and nightmares Martin and Birnes show how the paranormal has driven America's political public and military policies The authors examine the social history of the United States through the lens of the paranormal and investigate the spiritual events that inspired momentous national decisions UFOs that frightened the nation's military into launching nuclear bomber

squadrons toward the Soviet Union out of body experiences used to gather sensitive intelligence on other countries and even spirits summoned to communicate with living politicians The Haunting of Twentieth Century America is a thrilling evidencebased exploration of the often unexpected influences of the paranormal on science medicine law the government the military psychology theology death and dying spirituality and pop culture At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied **The Haunting of America** William J. Birnes,Joel

Martin,2025-06-25 In the tradition of their Haunting of the Presidents national bestselling authors Joel Martin and William J Birnes write The Haunting of America From The Salem Witch Trials to Harry Houdini the only book to tell the story of how paranormal events influenced and sometimes even drove political events In a narrative retelling of American history that begins with the Salem Witch Trials of the seventeenth century Martin and Birnes unearth the roots of America s fascination with the ghosts goblins and demons that possess our imaginations and nightmares The authors examine the political history of the United States through the lens of the paranormal and investigate the spiritual events that inspired public policy channelers and mediums who have advised presidents UFOs that frightened the nation s military into launching nuclear bomber squadrons toward the Soviet Union out of body experiencers deployed to gather sensitive intelligence on other countries and even spirits summoned to communicate with living politicians The Haunting of America is a thrilling exploration of the often unexpected influences of the paranormal on science medicine law government the military psychology theology death and dying spirituality and pop culture At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied The Haunting of Twenty-First-Century America William J. Birnes,Joel

Martin,2013-12-17 In this sequel to The Haunting of America and The Haunting of Twentieth Century America national bestselling authors Joel Martin and William J Birnes set the stage for one of the great intellectual and spiritual awakenings that is currently challenging traditional belief systems Reaching back into events that rocked the twentieth century the authors show that though denying the importance of a spiritual component in national policy even the most conservative of governments have based social and financial policy decisions on a profound belief in the existence of the paranormal The Haunting of Twenty First Century America is unlike any American history you will ever read it posits that not only is the paranormal more normal than most people think but that it is driving current events to a new Fourth Culture of the twenty first century *Space Wars* Michael Coumatos,William Scott,William J. Birnes,2007-04-17 Michael J Coumatos is a former U S Navy test pilot ship s captain and commodore U S Space Command director of wargaming and a government counterterrorism advisor William Scott is a retired bureau chief of Aviation Week and Space Technology and a nine year Air force veteran who served as aircrew on nuclear sampling missions He is a six time Royal Aeronautical Society Journalist of the Year finalist and won the Society s 1998 Lockheed Martin Award for the Best Defense Submission He also received both the 2006 and 2007 Messier Dowty awards for Best Airshow Submission With the help of New York Times bestselling author

William J Birnes these renowned experts have joined forces to grippingly depict how the first hours of World War III might play out in the year 2010 Coumatos Scott and Birnes take the reader inside U S Strategic Command where top military commanders space company executives and U S intelligence experts are conducting a DEADSATS II wargame exploring how the loss of critical satellites could lead to nuclear war The players don t know that the war they are gaming has already begun miles above them in the lifeless silent cold of space Jam packed with the actual systems and secret technologies the United States has or will soon field to protect its space assets Space Wars describes a near future nuclear nightmare that terrorists will relish but politicians prefer to ignore In a quieter more peaceful time Space Wars would be an exciting work of fiction But with the United States now at war Space Wars is all too real At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied **Air & Space Smithsonian** ,2010 Counter Space Juliet Kinchin,Aidan O'Connor,2011 Over the course of the past century the kitchen more than any other room in the modern dwelling has been the focus of intensive aesthetic and technological innovation Historically European and American kitchens were often drab poorly ventilated and hidden from view in a basement or annexe Towards the end of the 19th century however the kitchen became a central concern of modernism and a testing ground for new materials and technologies Since then the room has come to articulate and at times actively challenge society s relationships to food consumerism the domestic role of women and even international politics Counter Space examines the 20th century transformation of the kitchen through the collection of The Museum of Modern Art featuring a wide variety of design objects architectural plans posters archival photographs and artworks ranging from the iconic Frankfurt Kitchen massproduced for German public housing estates in the aftermath ofWorldWar I to an electric kettle heat resistant glassware and colourful plastics With an introductory essay by Juliet Kinchin this volume is a lively introduction to the kitchen as a barometer of changing technology aesthetics and ideology **WORLD WAR III AND ITS POSSIBILITIES** Dr.LI, LI JIN WEI,2023-02-27 This book is the first volume of the international relations series Peace Security and the World scheduled to be published before 2025 following the complete works of the Christianity and the World series published by the author in 2022 These two series of complete works are a summary of the author s decades of research on international relations World War III or WWIII is the name given to a hypothetical large scale third World military conflict after World War I and II Since at least 1941 the expression has been used Some apply it loosely to limited or minor conflicts such as the War on Terror or the Cold War Conversely others assume that such a conflict would surpass previous world wars in scale and destructive impact Because of the development of nuclear weapons by the Manhattan Project which was used in the atomic bombings of Nagasaki and Hiroshima toward the end of World War II and several nations subsequent acquisition and deployment of them the risk of a nuclear apocalypse decimating civilization and life on earth is a recurring theme in World War III speculation Another important fear is that biological warfare might lead to many victims It can occur purposefully or inadvertently such as the unintended release of a

biological agent an unforeseen mutation of an agent or its adaption to other species after usage These large scale cataclysmic occurrences produced by sophisticated destruction technologies can leave the earth s surface uninhabitable The years 1914 1918 of World War I was regarded as the war to end all wars before World War II in 1939 World War I was commonly referred to as The Great War during the interwar period It was widely believed that a global conflict of this magnitude would never happen again The outbreak of World War II dashed hopes that humanity had outgrown the need for full scale world wars In 1945 the Cold War began and with the spread of nuclear weapons technology in the Soviet Union the possibility of a Third World conflict became more plausible During the Cold War years military and civil authorities in many countries anticipated and planned for the possibility of a Third World War Scenarios included everything from conventional combat to limited or catastrophic nuclear war Mutual Assured Destruction MAD was devised during the Cold War according to which an all out nuclear war would destroy all nations involved The possibility of eradicating humanity may have contributed to American and Soviet leaders ability to avoid such a scenario The most recent major international military conflict Russia s invasion of Ukraine in 2022 has been noted as a potential flashpoint or catalyst for a third world war
