Collected Materials for the Study of the War, 1918 *Religion, Race, and the Making of Confederate Kentucky, 1830-1880* Luke E. Harlow, 2014-04-21 This book sheds new light on the role of religion in the nineteenth century slavery debates Luke E Harlow argues that the ongoing conflict over the meaning of Christian orthodoxy constrained the political and cultural horizons available for defenders and opponents of American slavery The central locus of these debates was Kentucky a border slave state with a long standing antislavery presence Although white Kentuckians famously cast themselves as moderates in the period and remained with the Union during the Civil War their religious values showed no moderation on the slavery question When the war ultimately brought emancipation white Kentuckians found themselves in lockstep with the rest of the Confederate South Racist religion thus paved the way for the making of Kentucky's Confederate memory of the war as well as a deeply entrenched white Democratic Party in the state
