

China's New Diplomacy and Its Impact on the World

IN OCTOBER 2003, PRESIDENT GEORGE W. Bush seemed excited to arrive on his first trip to Australia, a close friend and ally of the United States. But when he landed, his enthusiasm must have quickly melted. Thousands of demonstrators greeted him in several Australian cities. Some protestors crossed over from anger at the U.S. president to broader anti-Americanism, condemning U.S. culture and values.¹ Protected by an enormous security cocoon, Bush planned to address the Australian parliament.² But he could barely get rolling on his speech before Australian senators began heckling him.³

Only days later, Australia offered Chinese president Hu Jintao a vastly different welcome. Hu toured Australia like a hero. Fewer Australians than expected protested against Chinese human rights abuses.⁴ Even Australian Tibet campaigners went out of their way to be polite to Hu.⁵ In parliament, few members disturbed him. The trip concluded with the two nations signing a framework for a future free trade deal.

Australia's responses to the Bush and Hu visits reflected shifts in Australian public opinion. Only twenty years ago, Australia regarded China as coldly as it greeted the United States warmly. Many Australians still viewed cold war-era Beijing as a communist threat. Australia traded little with China, still an extremely poor country. Given this, the outcome of the visit was shocking, as was a 2005 poll by the respected Lowy Institute showing that 70 percent of Australians viewed China positively while only half had positive feelings about the United States.⁶

The transformation of China's image in Australia seems remarkable. Yet the transformation is hardly unique. Since the middle of the 1990s, China has grown in strength and global popularity; it has altered its image in many nations from dangerous to benign. A 2005 study of 22 nations by the Program on International Policy

JOSHUA KURLANTZICK is a visiting scholar at the Carnegie Endowment for International Peace. This essay is excerpted from his new book *China Offensive: How China's Soft Power is Transforming the Globe* and portions of the book also have been excerpted in *Current History and Commentary*.
