between democratic education and economic inequality in American society Drawing upon well established theoretical constructs in the literature on democratic citizenship as well as recent events this volume outlines the ways in which students can not only be educated about democracy but become actively engaged in the social issues of their time The collection begins with an examination of how the confluence of capitalism and education have problematized the current model of democratic education before transitioning into discussions of how teachers can confront economic disparity both economically and civically in the classroom The authors then introduce a variety of ways in which teachers can engage and empower students civic action at all grade levels As a final component the volume explores new avenues for civic action including the use of social media for democratic engagement in schools and opportunities for critical reflection and cross cultural dialogue This book is a valuable resource for both scholars interested in the research on democratic education and practicing teachers wishing to turn their students into critical active citizens *Leonard Cohen* Christophe

Lebold,2024-09-05 Leonard Cohen has aimed high to be all Jewish heroes at once Like Jacob he struggled with angels Like David he sang psalms and seduced women But he never ceased doing what he did best going from city to city and reviving our hearts Leonard Cohen *The Man Who Saw the Angels Fall* follows the singer s cosmopolitan life from Montreal and New York to the Greek island of Hydra and examines his perpetual dialogues with himself God and avalanches We see how six decades of radiant pessimism and a few thousand nights in hotel rooms transformed a young Jewish poet who longed to be a saint into an existentialist troubadour in love with women and a gravelly voiced crooner who taught a thousand ways of dissolving into love After more than two decades of research and travels Christophe Lebold who befriended the poet and spent time with him in Los Angeles delivers a stimulating analysis of Cohen s life and art Gracefully blending biography and essay he interrogates the mission Cohen set out for himself to show us that darkness is just the flip side of light
