Christian Metaphysics And Neoplatonism Christian Metaphysics And Neoplatonism:

Christian Metaphysics and Neoplatonism Albert Camus, 2007 Contemporary scholarship tends to view Albert Camus as a modern but he himself was conscious of the past and called the transition from Hellenism to Christianity the true and only turning point in history For Camus modernity was not fully comprehensible without an examination of the aspirations that were first articulated in antiquity and that later received their clearest expression in Christianity These aspirations amounted to a fundamental reorientation of human life in politics religion science and philosophy Understanding the nature and achievement of that reorientation became the central task of Christian Metaphysics and Neoplatonism Primarily known through its inclusion in a French omnibus edition it has remained one of Camus least read works yet it marks his first attempt to understand the relationship between Greek philosophy and Christianity as he charted the movement from the Gospels through Gnosticism and Plotinus to what he calls Augustine's second revelation of the Christian faith Ronald Srigley's translation of this seminal document helps illuminate these aspects of Camus work His freestanding English edition exposes readers to an important part of Camus thought that is often overlooked by those concerned primarily with the book's literary value and supersedes the extant McBride translation by retaining a greater degree of literalness Srigley has fully annotated *Christian Metaphysics* to include nearly all of Camus original citations and has tracked down many poorly identified sources When Camus cites an ancient primary source whether in French translation or in the original language Srigley substitutes a standard English translation in the interest of making his edition accessible to a wider range of readers His introduction places the text in the context of Camus better known later work explicating its relationship to those mature writings and exploring how its themes were reworked in subsequent books Arguing that Camus was one of the great critics of modernity through his attempt to disentangle the Greeks from the Christians Srigley clearly demonstrates the place of *Christian Metaphysics* in Camus oeuvre As the only stand alone English version of this important work and a long overdue critical edition his fluent translation is an essential benchmark in our understanding of Camus and his place in modern thought

Neoplatonism in Relation to Christianity Charles Elsee, 2014-05-29 Originally published in 1908 this book discusses the

relationship between Neoplatonism Christianity and the Roman world **Neoplatonism** Pauliina Remes,2014-12-05

Although Neoplatonism has long been studied by classicists until recently most philosophers saw the ideas of Plotinus et al as a lot of religious magical mumbo jumbo Recent work however has provided a new perspective on the philosophical issues in Neoplatonism and Pauliina Remes new introduction to the subject is the first to take account of this fresh research and provides a reassessment of Neoplatonism s philosophical credentials Covering the Neoplatonic movement from its founder Plotinus AD 204 70 to the closure of Plato s Academy in AD 529 Remes explores the ideas of leading Neoplatonists such as Porphyry Iamblichus Proclus Simplicius and Damascius as well as less well known thinkers Situating their ideas alongside classical Platonism Stoicism and the neo Pythagoreans as well as other intellectual movements of the time such as Gnosticism Judaism and Christianity Remes provides a valuable survey for the beginning student and non specialist *The Routledge Handbook of Early Christian Philosophy* Mark Edwards,2020-11-29 This volume offers the most comprehensive survey available of the philosophical background to the works of early Christian writers and the development of early Christian doctrine It examines how the same philosophical questions were approached by Christian and pagan thinkers the philosophical element in Christian doctrines the interaction of particular philosophies with Christian thought and the constructive use of existing philosophies by all Christian thinkers of late antiquity While most studies of ancient Christian writers and the development of early Christian doctrine make some reference to the philosophic background this is often of an anecdotal character and does not enable the reader to determine whether the likenesses are deep or superficial or how pervasively one particular philosopher may have influenced Christian thought This volume is designed to provide not only a body of facts more compendious than can be found elsewhere but the contextual information which will enable readers to judge or clarify the statements that they encounter in works of more limited scope With contributions by an international group of experts in both philosophy and Christian thought this is an invaluable resource for scholars of early Christianity Late Antiquity and ancient philosophy alike Neoplatonism in Relation to Christianity Charles Elsee,1908 **Metaphysics** Adrian Pabst,2012-05-04 This book does nothing less than to set new standards in combining philosophical with political theology Pabst s argument about rationality has the potential to change debates in philosophy politics and religion from the foreword This comprehensive and detailed study of individuation reveals the theological nature of metaphysics Adrian Pabst argues that ancient and modern conceptions of being or individual substance fail to account for the ontological relations that bind beings to each other and to God their source On the basis of a genealogical account of rival theories of creation and individuation from Plato to postmodernism Pabst proposes that the Christian Neo Platonic fusion of biblical revelation with Greco Roman philosophy fulfills and surpasses all other ontologies and conceptions of individuality Platonism and Christian Thought in Late Antiquity Panagiotis G. Pavlos,Lars Fredrik Janby,Eyjólfur Kjalar Emilsson,Torstein Theodor Tollefsen,2019-06-07 Platonism and Christian Thought in Late Antiquity examines the various ways in which Christian

intellectuals engaged with Platonism both as a pagan competitor and as a source of philosophical material useful to the Christian faith. The chapters are united in their goal to explore transformations that took place in the reception and interaction process between Platonism and Christianity in this period. The contributions in this volume explore the reception of Platonic material in Christian thought showing that the transmission of cultural content is always mediated and ought to be studied as a transformative process by way of selection and interpretation. Some chapters also deal with various aspects of the wider discussion on how Platonic and Hellenic philosophy and early Christian thought related to each other, examining the differences and common ground between these traditions. Platonism and Christian Thought in Late Antiquity offers an insightful and broad-ranging study on the subject which will be of interest to students of both philosophy and theology in the Late Antique period as well as anyone working on the reception and history of Platonic thought and the development of Christian thought.

Metaphysics and Morals in Marius Victorinus' Commentary on the Letter to the Ephesians

Stephen Andrew Cooper, 1995. Marius Victorinus was the first Latin Christian of the fourth century to show the influence of Neoplatonism. Plotinus and Porphyry. As a convert from paganism, Victorinus' version of Christianity offers the student of Late Antiquity a window for understanding the conversion of the upper classes in the Western Roman Empire to Christianity. Because he was a professional rhetorician, an analysis of the exegetical work enables us to see how the moral mindset of the rhetorical schools found itself at home within Christianity. The Neoplatonic influences in the works of Ambrose and Augustine can be appreciated better when understood in relation to the intellectual circles that preceded them. Victorinus being the most well-documented figure of this milieu.

The Christocentric Cosmology of St Maximus the Confessor Torstein

Tollefsen, 2008-08-07. St Maximus the Confessor (580-662) was a major Byzantine thinker, a theologian and philosopher. He developed a philosophical theology in which the doctrine of God, creation, the cosmic order, and salvation is integrated in a unified conception of reality. Christ, the divine Logos, is the centre of the principles, the logoi, according to which the cosmos is created and in accordance with which it shall convert to its divine source. Torstein Tollefsen treats Maximus' thought from a philosophical point of view and discusses similar thought patterns in pagan Neoplatonism. The study focuses on Maximus' doctrine of creation in which he denies the possibility of eternal coexistence of uncreated divinity and created and limited being. Tollefsen shows that by the logoi God institutes an ordered cosmos in which separate entities of different species are ontologically interrelated with man as the centre of the created world. The book also investigates Maximus' teaching of God's activities or energies and shows how participation in these energies is conceived according to the divine principles of the logoi. An extensive discussion of the complex topic of participation is provided.
