Christian Human Rights Intellectual History Of The Modern Age:

International Human Rights Law and Diplomacy Kriangsak Kittichaisaree, 2020-03-28 This incisive book provides an unparalleled insight into the ways in which international human rights law functions in a real world context across cultural religious and geopolitical divides Written by a professor former ambassador and international judge the book demonstrates how power diplomacy tactics and processes operate within the human rights system from the perspective of a non Western insider with more than three decades experience in the field

The Legacy and Limits of Vatican II in an Age of Crisis Massimo Faggioli, Edward P. Hahnenberg, Kristin M Colberg, Catherine Clifford, 2025-04-26 A renewed approach to the critical study of the event and documents of Vatican II necessary for responding to the challenges facing today's church Packed with new insights from some of today's most highly regarded voices on the Second Vatican Council *The Legacy and Limits of Vatican II in an Age of Crisis* enacts the living tradition of the church by proposing a richer history to be told sixty years from its celebration and a broader theology to inspire our work today Vatican II did not anticipate our contemporary challenges nor do its documents provide specific guidelines or step by step instructions for addressing them But that does not make the council irrelevant As a touchstone of the church's magisterial tradition the Second Vatican Council remains foundational for the life and mission of the Catholic Church today However like any monument of the tradition the council requires ongoing investigation critical analysis and constant reconsideration from a diversity of contemporary perspectives if it is going to contribute to the living tradition of the church Through historical and theological lenses the contributors aim to rediscover forgotten voices and overlooked moments of Vatican II that may have something even more important to say today Each chapter promises to surprise enlighten inspire and teach in fresh and unexpected ways The contributors offer readers striking insights on the council's teaching related to the sexual abuse crisis antiracism politics the Synod on Synodality and much more By reexamining the teaching of Vatican II from the perspective of our present ecclesial crisis readers will have a better understanding of how its legacy and limits affect the ongoing reform of the church in a much changed theological ecclesial and social landscape Contributors Matteo Caponi Catherine E Clifford Kristin M Colberg Agn's Desmazières Massimo Faggioli Theresa Gardner Edward P Hahnenberg Timothy Hanchin Tuan A Hoang Mary Kate Holman Jaisy A Joseph Florian Klug William Kuncken Josephine Laffin Martin Madar Evgeniia Muzychenko William I Orbih Bernard G Prusak Daniel A Rober

Citizenship and Human Rights Christian H Kälin, 2024-02-08 Can universal human rights and different national citizenship regimes ever be compatible This book argues that they can't setting out a legal philosophical critique of the tension between both It explores whether the emergence of postnational models of citizenship that aim at decoupling human rights and citizenship succeed in overcoming tensions between the universal multiculturalism universal human rights postnational values and the particular citizenship borders national values and diverse local narratives As a result of this exploration the author argues that it is illegitimate to speak of universal human rights universal human dignity or universal

social justice It is only by recognising this reality that a much needed transformation of human rights and citizenship can be undertaken in a meaningful way This provocative and compelling work will appeal to both human rights and citizenship lawyers as well as others involved in human rights law at NGOs governments international organisations and indeed anyone with an interest in the subject of how human rights evolved and new concepts for the future **Christian Human Rights** Samuel Moyn,2015-09-14 In *Christian Human Rights* Samuel Moyn asserts that the rise of human rights after World War II was prefigured and inspired by a defense of the dignity of the human person that first arose in Christian churches and religious thought in the years just prior to the outbreak of the war The Roman Catholic Church and transatlantic Protestant circles dominated the public discussion of the new principles in what became the last European golden age for the Christian faith At the same time West European governments after World War II particularly in the ascendant Christian Democratic parties became more tolerant of public expressions of religious piety Human rights rose to public prominence in the space opened up by these dual developments of the early Cold War Moyn argues that human dignity became central to Christian political discourse as early as 1937 Pius XII s wartime Christmas addresses announced the basic idea of universal human rights as a principle of world and not merely state order By focusing on the 1930s and 1940s Moyn demonstrates how the language of human rights was separated from the secular heritage of the French Revolution and put to use by postwar democracies governed by Christian parties which reinvented them to impose moral constraints on individuals support conservative family structures and preserve existing social hierarchies The book ends with a provocative chapter that traces contemporary European struggles to assimilate Muslim immigrants to the continent s legacy of Christian human rights

Human Rights, Democracy, and Legitimacy in a World of Disorder Silja Voene, Gerald L. Neuman,2018-10-11 *Human Rights Democracy and Legitimacy in a World of Disorder* brings together respected scholars from diverse disciplines to examine a trio of key concepts that help to stabilize states and the international order While used pervasively by philosophers legal scholars and politicians the precise content of these concepts is disputed and they face new challenges in the conditions of disorder brought by the twenty first century This volume will explore the interrelationships and possible tensions between human rights democracy and legitimacy from the philosophical legal and political perspectives as well as the role of these concepts in addressing particular problems such as economic inequality catastrophic risks posed by new technologies access to health care regional governance and responses to mass migration Comprising essays arising from an interdisciplinary symposium convened at Harvard Law School in 2016 this volume will examine how these trusted concepts may bring order to the global community *Hitler's Refugees and the French Response, 1933-1938* Julius Fein,2021-03-01 Julius Fein examines the French response to the large number of German refugees between 1933 and 1938 Fein demonstrates how the Quai d Orsay sought a compromise between the Republican canon which said France must help the persecuted and the factors that limited its willingness to accept refugees including economic depression mass unemployment

anti-Semitism and anti-German sentiment **Evidence for Hope** Kathryn Sikkink, 2019-03-05 A history of the successes of the human rights movement and a case for why human rights work Evidence for Hope makes the case that yes human rights work Critics may counter that the movement is in serious jeopardy or even a questionable byproduct of Western imperialism Guantánamo is still open and governments are cracking down on NGOs everywhere But human rights expert Kathryn Sikkink draws on decades of research and fieldwork to provide a rigorous rebuttal to doubts about human rights laws and institutions Past and current trends indicate that in the long term human rights movements have been vastly effective Exploring the strategies that have led to real humanitarian gains since the middle of the twentieth century Evidence for Hope looks at how essential advances can be sustained for decades to come **Rights at the Margins** Virpi Mäkinen, Jonathan William Robinson, Pamela Slotte, Heikki Haara, 2020-11-04 The essays in this volume explore the ways rights were available to those in the margins of society By tracing pivotal judicial concepts such as right of necessity and subjective rights back to their medieval versions and by situating them in unexpected contexts such as the Franciscans theory of poverty and colonization or today's immigration and border control this volume invites its readers to consider whether individual rights were in fact or at least in theory available to the marginalized By focusing not only on the economically impoverished but also those who were disenfranchised because of disability gender race religion or infidelity this book also sheds light on the relationship between the early history of individual rights and social justice at the margins Contributors are Wim Decock Heikki Haara Virpi Mäkinen Alejandra Mancilla Julia McClure Ilse Paakkinen Mikko Posti Jonathan Robinson John Salter Pamela Slotte and Jussi Varkemaa **Christianity and Human Rights Reconsidered** Sarah Shortall, Daniel Steinmetz-Jenkins, 2020-09-24 This is the first global examination of the historical relationship between Christianity and human rights in the twentieth century Leading historians anthropologists political theorists legal scholars and scholars of religion develop fresh approaches to issues such as human dignity personalism religious freedom the role of ecumenical and transatlantic networks and the relationship between Christian and liberal rights theories In doing so they move well beyond the temporal and geographical limits of the existing scholarship exploring the connection between Christianity and human rights not only in Europe and the United States but also in Africa Latin America and China They offer alternative chronologies and bring to light overlooked aspects of this history including the role of race gender decolonization and interreligious dialogue Above all these essays foreground the complicated relationship between global rights discourses whether Christian liberal or otherwise and the local contexts in which they are developed and implemented **International Law and the Politics of History** Anne Orford, 2021-08-05 As the future of international law has become a growing site of struggle within and between powerful states debates over the history of international law have become increasingly heated International Law and the Politics of History explores the ideological political and material stakes of apparently technical disputes over how the legal past should be studied and understood Drawing on a deep knowledge of the history theory and practice of international law Anne Orford

argues that there can be no impartial accounts of international law's past and its relation to empire and capitalism. Rather than looking to history in a doomed attempt to find a new ground for formalist interpretations of what past legal texts really mean or what international regimes are really for, she urges lawyers and historians to embrace the creative role they play in making rather than finding the meaning of international law.
