Chicagos New Negroes Modernity The Great Migration And Black Urban Life:

Chicago's New Negroes Davarian L. Baldwin, 2009-11-30 As early twentieth century Chicago swelled with an influx of at least 250 000 new black urban migrants the city became a center of consumer capitalism flourishing with professional sports beauty shops film production companies recording studios and other black cultural and communal institutions Davarian Baldwin argues that this mass consumer marketplace generated a vibrant intellectual life and planted seeds of political dissent against the dehumanizing effects of white capitalism Pushing the traditional boundaries of the Harlem Renaissance to new frontiers Baldwin identifies a fresh model of urban culture rich with politics ingenuity and entrepreneurship Baldwin explores an abundant archive of cultural formations where an array of white observers black cultural producers critics activists reformers and black migrant consumers converged in what he terms a marketplace intellectual life Here the thoughts and lives of Madam C J Walker Oscar Micheaux Andrew Rube Foster Elder Lucy Smith Jack Johnson and Thomas Dorsey emerge as individual expressions of a much wider spectrum of black political and intellectual possibilities By placing consumer based amusements alongside the more formal arenas of church and academe Baldwin suggests important new directions for both the historical study and the constructive future of ideas and politics in American life *The Great Black Migration* Steven A. Reich, 2014-04-17 Treating broad themes as well as specific topics this guide to the Great Black Migration will introduce high school students to a touchstone critical to shaping the history of African Americans in the United States The movement of Southern blacks to the urban North and West over the course of the 20th century had a profound impact on black life affecting everything from politics and labor to literature and the popular arts This encyclopedia provides readers and researchers with a comprehensive reference work on this central topic of African American history exploring the breadth of the black migration experience from its origins in the agricultural economy of the post Civil War South to the return migration of the late 20th century Entries cover such topics as the destinations that attracted black migrants the impact of the Great Migration on black religion the relationship between migration and black politics and the patterns of discrimination and racial violence migrants encountered Unlike more general reference works on African American history each entry in the encyclopedia situates its subject within the context of black migration and articulates connections between the subject of the entry and the overall history of the migration *Struggle for the Street* Jessica D. Klanderud, 2023-03-15 Cities are nothing without the streets the arteries through which goods people and ideas flow Neighborhood by neighborhood block by block the city streets are where politics begins In *Struggle for the Street* Jessica D Klanderud documents the development of class based visions of political social and economic equality in Pittsburgh s African American community between World War I and the early 1970s Klanderud emphasizes how middle class and working class African Americans struggled over the appropriate uses and dominant meanings of street spaces in their neighborhoods as they collectively struggled to define equality In chapters that move from one community to the next Klanderud tracks the

transformation of tactics over time with a streets eye view that reveals the coalescing alliances between neighbors and through space Drawing on oral histories of neighborhood residents Black newspapers and papers from the NAACP and Urban League this study reveals complex class negotiations in the struggle for civil rights at the street level **Preaching on Wax** Lerone A Martin, 2014-11-14 The overlooked African American religious history of the phonograph industry Winner of the 2015 Frank S and Elizabeth D Brewer Prize for outstanding scholarship in church history by a first time author presented by the American Society of Church History Certificate of Merit 2015 Award for Excellence in Historical Recorded Sound Research presented by the Association for Recorded Sound Collections From 1925 to 1941 approximately one hundred African American clergymen teamed up with leading record labels such as Columbia Paramount Victor RCA to record and sell their sermons on wax While white clerics of the era such as Aimee Semple McPherson and Charles Fuller became religious entrepreneurs and celebrities through their pioneering use of radio black clergy were largely marginalized from radio Instead they relied on other means to get their message out teaming up with corporate titans of the phonograph industry to package and distribute their old time gospel messages across the country Their nationally marketed folk sermons received an enthusiastic welcome by consumers at times even outselling top billing jazz and blues artists such as Bessie Smith and Ma Rainey These phonograph preachers significantly shaped the development of black religion during the interwar period playing a crucial role in establishing the contemporary religious practices of commodification broadcasting and celebrity Yet the fame and reach of these nationwide media ministries came at a price as phonograph preachers became subject to the principles of corporate America In *Preaching on Wax* Lerone A Martin offers the first full length account of the oft overlooked religious history of the phonograph industry He explains why a critical mass of African American ministers teamed up with the major phonograph labels of the day how and why black consumers eagerly purchased their religious records and how this phonograph religion significantly contributed to the shaping of modern African American Christianity

Instructor s Guide *A Spectacular Leap* Jennifer H. Lansbury, 2014-04-01 When high jumper Alice Coachman won the high jump title at the 1941 national championships with a spectacular leap African American women had been participating in competitive sport for close to twenty five years Yet it would be another twenty years before they would experience something akin to the national fame and recognition that African American men had known since the 1930s the days of Joe Louis and Jesse Owens From the 1920s when black women athletes were confined to competing within the black community through the heady days of the late twentieth century when they ruled the world of women s track and field African American women found sport opened the door to a better life However they also discovered that success meant challenging perceptions that many Americans both black and white held of them Through the stories of six athletes Coachman Ora Washington Althea Gibson Wilma Rudolph Wyomia Tyus and Jackie Joyner Kersee Jennifer H Lansbury deftly follows the emergence of black women athletes from the African American community their confrontations with contemporary attitudes of race class and

gender and their encounters with the civil rights movement Uncovering the various strategies the athletes use to beat back stereotypes Lansbury explores the fullness of African American women s relationship with sport in the twentieth century

Chicago on the Make Andrew J. Diamond,2020-04-07 Effectively details the long history of racial conflict and abuse that has led to Chicago becoming one of America s most segregated cities A wealth of material New York Times Winner of the 2017 Jon Gjerde Prize Midwestern History Association Winner of the 2017 Award of Superior Achievement Illinois State Historical Society Heralded as America s quintessentially modern city Chicago has attracted the gaze of journalists novelists essayists and scholars as much as any city in the nation And yet few historians have attempted big picture narratives of the city s transformation over the twentieth century Chicago on the Make traces the evolution of the city s politics culture and economy as it grew from an unruly tangle of rail yards slaughterhouses factories tenement houses and fiercely defended ethnic neighborhoods into a truly global urban center Reinterpreting the familiar narrative that Chicago s autocratic machine politics shaped its institutions and public life Andrew J Diamond demonstrates how the grassroots politics of race crippled progressive forces and enabled an alliance of downtown business interests to promote a neoliberal agenda that created stark inequalities Chicago on the Make takes the story into the twenty first century chronicling Chicago s deeply entrenched social and urban problems as the city ascended to the national stage during the Obama years **City of Lake and Prairie**

Kathleen A. Brosnan,Ann Durkin Keating,William C. Barnett,2020-09-08 Known as the Windy City and the Hog Butcher to the World Chicago has earned a more apt sobriquet City of Lake and Prairie with this compelling innovative and deeply researched environmental history Sitting at the southwestern tip of Lake Michigan one of the largest freshwater bodies in the world and on the eastern edge of the tallgrass prairies that fill much of the North American interior early residents in the land that Chicago now occupies enjoyed natural advantages economic opportunities and global connections over centuries from the Native Americans who first inhabited the region to the urban dwellers who built a metropolis in the nineteenth and twentieth centuries As one millennium ended and a new one began these same features sparked a distinctive Midwestern environmentalism aimed at preserving local ecosystems Drawing on its contributors interdisciplinary talents this volume reveals a rich but often troubled landscape shaped by communities of color workers and activists as well as complex human relations with industry waterways animals and disease *Building the Black Metropolis* Robert E. Weems Jr.,2017-08-10

From Jean Baptiste Point DuSable to Oprah Winfrey black entrepreneurship has helped define Chicago Robert E Weems Jr and Jason P Chambers curate a collection of essays that place the city as the center of the black business world in the United States Ranging from titans like Anthony Overton and Jesse Binga to McDonald s operators to black organized crime the scholars shed light on the long overlooked history of African American work and entrepreneurship since the Great Migration Together they examine how factors like the influx of southern migrants and the city s unique segregation patterns made Chicago a prolific incubator of productive business development and made building a black metropolis as much a necessity as

an opportunity Contributors Jason P Chambers Marcia Chatelain Will Cooley Robert Howard Christopher Robert Reed Myiti Sengstacke Rice Clovis E Semmes Juliet E K Walker and Robert E Weems Jr **Fashion Before Plus-Size** Lauren Downing Peters, 2023-06-15 Shortlisted for the Association of Dress Historians Book of the Year Award 2024 In 2022 it was reported that plus sizes accounted for nearly twenty percent of all women's apparel sales in the United States and was one of the industry's few growth sectors For many this news seemed to herald a remarkably inclusive turn for an industry that long bartered in exclusivity Yet the recent success of plus size fashion obscures a rather complicated history one that can be traced back over a century and which illuminates the fraught relationship between fashion fat and weight bias in American culture Although many regard fat as a malady of the present in the early twentieth century it was estimated that more than one third of American women classified as overweight While modern weight bias had yet to fully cement itself in the American imaginary the limitations of mass garment manufacturing coupled with the ascendent slender beauty ideal had already relegated larger women to fashion's peripheries By 1915 however fashion forecasters predicted that so called stoutwear was well positioned to become one of the most lucrative subsectors of the burgeoning ready to wear trade In the years that followed stoutwear manufacturers set out to create more space for the fat woman in fashion but in doing so revealed an ancillary motivation that of how to design fat out of existence altogether Fashion Before Plus Size considers what came before plus size fashion while also shedding new light on the ways that the fashion industry not only perpetuates but produces weight bias By situating stoutwear at the confluence of mass manufacturing beauty ideals standardized sizing health discourse and consumer culture this book exposes the flawed foundations upon which the contemporary plus size fashion industry has been built **The Black Chicago Renaissance** Darlene Clark Hine, John McCluskey, 2012-06-15 Beginning in the 1930s Black Chicago experienced a cultural renaissance that lasted into the 1950s and rivaled the cultural outpouring in the Harlem Renaissance of the 1920s The contributors to this volume analyze this prolific period of African American creativity in music performance art social science scholarship and visual and literary artistic expression Unlike Harlem Chicago was an urban industrial center that gave a unique working class and internationalist perspective to the cultural work being done in Chicago This collection's various essays discuss the forces that distinguished the Black Chicago Renaissance from the Harlem Renaissance and placed the development of black culture in a national and international context Among the topics discussed in this volume are Chicago writers Gwendolyn Brooks and Richard Wright The Chicago Defender and Tivoli Theater African American music and visual arts and the American Negro Exposition of 1940 Contributors are Hilary Mac Austin David T Bailey Murry N DePillars Samuel A Floyd Jr Erik S Gellman Jeffrey Helgeson Darlene Clark Hine John McCluskey Jr Christopher Robert Reed Elizabeth Schlabach and Clovis E Semmes
