What is ambulatory surgery?

To understand ambulatory surgery center billing, we first need to know what ambulatory surgery is. Surgical procedures that do not require an overnight stay are known as ambulatory surgeries. Due to this reason, they may also be called 'outpatient surgery' or 'same day surgery'.

Such surgeries don't require a high level of post surgery care, making it possible for patients to leave the clinic or hospital after the procedure. Examples of ambulatory surgeries include carpal tunnel surgery, cataracts surgery, colonoscopy and various ENT (ear, nose, throat) procedures.

What are ambulatory surgery centers?

Ambulatory surgeries are often performed by dedicated healthcare service providers, also known as ambulatory surgery centers or ASCs.
