Clinical Manual of Chinese Herbal Patent Medicines, 3rd Edition Will MacLean, Kathryn Taylor, 2000 This is the eBook version of the third edition October 2016 of the Clinical Manual of Chinese Herbal Medicines The content is identical except for the use of color in the eVersion The content describes the actions indications dosages and potential combinations of over 330 medicines Since the first edition published in 2000 the number of medicines available in the marketplace has expanded considerably New companies have entered the market and some previously available medicines have disappeared Patent medicines are for many practitioners the cornerstone of herbal medicine practice The author believes that patent medicines carefully and correctly applied can be as effective as raw herb decoctions for many common conditions In addition they have numerous advantages not the least of which are improved compliance relatively low cost to the patient and a high degree of quality control The Clinical Manual of Chinese Herbal Patent Medicines is the most up to date text on what is actually available in the market and what is good and of good quality It is an essential addition to the desk and bookshelf of all serious practitioners and students of Chinese medicine In addition to the government registered medicines available in Australia the details a number of classical prescriptions currently available only in the US and Europe One of the nicest features of the text is its use of small icons in the left margin to indicate use information Each formula is discussed in terms of its TCM Actions Biomedical actions Indications Composition Combinations Dose and Method of Administration and Cautions and Contraindications A specially nice feature are the line drawings of persons illustrating elements of the patterns These are often expressive of the attitudinal and psychological characteristics of those matching the pattern indicated

Manual for the Standard for Clinicians' Interview in Psychiatry (SCIP) Ahmed Sayed Aboraya, 2022-07-15 The SCIP manual will introduce a new assessment tool designed to be compatible with 21st century advances in measurement based care MBC and personalized medicine in psychiatry PMP The SCIP includes 18 clinician administered and 15 self administered reliable and validated scales covering most adult symptom domains anxiety obsessions compulsions posttraumatic stress depression mania delusions hallucinations disorganized thoughts aggression negative symptoms alcohol use drug use attention deficit hyperactivity and eating disorders Mental health professionals psychiatrists psychiatry residents psychologists therapists clinical social workers counselors nurses nurse practitioners physician assistants professors students and mental health researchers are the primary audience of the manual These professionals will be able to implement SCIP scales in their practice and use the SCIP psychopathology glossary as part of the emerging science of personalized medicine psychiatry PMP Existing books on measures and rating scales such as the two books above describe different scales developed by different authors at different periods Each scale has its own rating guidelines and training requirements which must be followed by clinicians in order to use the scales This demands a considerable amount of time for clinicians and can be a barrier to using the scales in practice Even within the same psychopathology domain many published

measurement scales exist For instance the book published by Waters and Stephane includes 120 scales for psychosis Among the 120 scales for psychosis which scale s should the clinician choose Our proposed manual will remove these barriers by creating simple and universal principles which allow readers to use the 33 reliable and validated SCIP scales with most adult psychiatric disorders There will be 15 videotaped interviews available online for readers who buy the book Readers are expected to watch the interviews in conjunction with reading the manual
