Developing Writing for Different Purposes Jeni Riley, David Reedy, 2000-01-26 Jeni Riley and David Reedy share excellent examples of how primary school children worked on a non

fiction text format A well informed book with a welcome dose of humour Nursery World The theoretical underpinning to this volume is rigorous and the case studies are both endearing and informative Early Years One of the insights of social theories of language which is now taken for granted is that language varies as the social context varies Kress 1997 This is a book that operationalizes this insight it charts young children s early attempts to write as they struggle to communicate meaning for a variety of purposes Each section deals with the appropriate research evidence on the development of children s competence in literacy and their growing awareness of genre and uniquely with a clear approach to teaching children from three to seven years The text combines the necessary theoretical underpinning plus the day to day practical experience of working with young children in order to develop their understanding of the different forms and language of texts *Supporting Language And Literacy Development In The Early Years* Whitehead, Marian,2009-03-01 Radically updated in light of new research and developments the new edition of this important book gives clear guidance on how to support young childrens language and literacy development **Multicultural Children in the Early Years** Peter Woods,Mari Boyle,Nick Hubbard,2020-03-13 How do multicultural children and their parents experience the very beginning of their school careers How do teachers mediate the demands of the educational system and how do the children adapt What kind of access to the National Curriculum is offered to multicultural children Originally published in 1999 the authors answer these questions by drawing on two years intensive research in three multi ethnic institutions They explore teachers values and beliefs and how they attempt to put them into practice They describe how at times teachers were constrained to get things done because of pressures operating on them but at other times taught creatively in a way particularly relevant to the children s concerns and cultures The authors studied the children s experiences on their transition into school and argue that they were inducted into not only a general pupil role but also one based on an anglicised model of pupil Opportunities for learning which children found most meaningful came notably from free play but these became gradually more limited as they engaged with the National Curriculum These young children were forming complex identities as they sought to respond to the varying influences operating them Their parents saw a cultural divide opening up between home and school Many suggestions for practice and policy are made in the course of the book and are still relevant today Inclusion and Diversity in the Early Years Anne Rodgers,Dr Elaine Wilmot,2012-07-11 This guide outlines best practice and key research findings on how to create a truly inclusive setting covering all aspects of equality and diversity The book contains advice on supporting children with special educational needs and providing for children with English as an additional language Public School Methods ,1921 **Teaching Through Texts** Holly Anderson,Morag Styles,2002-02-07 Drawing on many popular and literary texts the contributors to this book write with enthusiasm about opportunities for creative teaching and learning and provide many examples of good practice both inside and outside the Literacy Hour
