CLAAS-COMET - with all the special features of a large Self-Propelled Combine Harvester

The CLAAS-COMET is a member of the C line range of Self-Propelled Combine Harvesters designed by the world's best designers, because of its modular equipment it can clear its class, designed for large CLAAS Self-Propelled Combine Harvesters.

Its great appeal lies in its modern design and the total HANDEL control of the height of reel and cutterbar with its spring suspension and drive shafts. The working of the CLAAS-COMET is based on

control of the input collection of crops — crops on the right, driven platform on the left — and at state a low point of gravity.

All things are easily adjustable, although with protected fixed, automatic and functional gearings. The CLAAS-COMET is a large machine in the CLAAS range being highly efficient and attractive in price.
