Cinema Of Outsiders The Rise Of American Independent Film:

Cinema of Outsiders Emanuel Levy, 1999 The most important development in American culture of the last two decades is the emergence of independent cinema as a viable alternative to Hollywood's safe and innocuous entertainment. Indeed while Hollywood studios devote much of their time and energy to churning out big budget star studded event movies a renegade independent cinema that challenges mainstream fare continues to flourish with strong critical support and loyal audiences.

US Independent Film After 1989 Claire Perkins, 2015-02-27 Looking beyond the directors and works that have branded indie discourse in the 1990s and 2000s *US Independent Film After 1989* Possible Films attends to a group of 20 texts that have not been so fully subsumed by existing critical and promotional rhetoric. Through individual studies of films including *All the Real Girls*, *The Exploding Girl*, *Laurel Canyon*, *Jesus Son*, *Old Joy*, *Primer* and *You Can Count on Me* leading cinema scholars consider how notions of indie practice poetics and politics can be opened up to account for a larger body of work than the dominant canon admits. With particular attention to female directors this innovative and comprehensive book explores the central tenets of indie scholarship while simultaneously emphasising the classifying processes that can limit it.

Quatri me de couverture A Companion to American Indie Film Geoff King, 2016-10-11 *A Companion to American Indie Film* features a comprehensive collection of newly commissioned essays that represent a state of the art resource for understanding key aspects of the field of indie films produced in the United States. Includes studies of many types of indie films and film genres along with various filmmakers and performers that have come to define the field.

American Independent Cinema Geoff King, Claire Molloy, Yannis Tzioumakis, 2013 The American independent sector has attracted much attention in recent years, an upsurge of academic work on the subject being accompanied by wider public debate. But many questions remain about how exactly independence should be defined and how its relationship might be understood with other parts of the cinematic landscape, most notably the Hollywood studios. Edited and written by leading authors in the field, *American Independent Cinema* indie indiewood and beyond offers an examination of the field through four sections that range in focus from broad definitions to close focus on particular manifestations of independence. A wide variety of examples are included but within a framework that offers insights into how these are related to one another. More specifically this collection offers an account of recent developments as well as reviewing, reassessing and revising a number of central positions, approaches and arguments relating to various parts of the independent and/or indie sector. Individual case studies that range from the distinctive qualities of the work of established quality filmmakers such as Wes Anderson, Steven Soderbergh and Rebecca Miller to studies of horror.

genre production at the more disreputable end of the independent spectrum Examples of the limits of independence available in some cases within Hollywood including studies of the work of Stanley Kubrick and Hal Ashby Case studies of under researched areas in the margins of American independent cinema including the Disney nature films and Christian evangelical filmmaking A number of wider overview chapters that examine contemporary American independent cinema from a number of perspectives Together the chapters in the collection offer a unique contribution to the study of independent film in the United States Contributors Warren Buckland Philip Drake Mark Gallagher Geoff King Peter Kr mer Novotny Lawrence James MacDowell Claire Molloy Michael Z Newman Alisa Perren James Russell Thomas Schatz Michele Schreiber Janet Staiger Yannis Tzioumakis Sarah Wharton
