De-/Re-Contextualizing Conference Interpreting Ebru Diriker, 2004-08-26 This groundbreaking study explores Simultaneous Conference Interpreting SI by focusing on interpreters as professionals working in socio cultural contexts and on the interdependency between these contexts and actual SI behavior While previous research on SI has been dominated by cognitive and psycholinguistic approaches Diriker s work explores SI in relation to the broader and more immediate socio cultural contexts by investigating the representation of the professional in the meta discourse and by exploring the presence of interpreters and the nature of the interpreted utterance at an actual conference Making use of participant observations interviews and analysis of conference transcripts Diriker challenges some of the widely held assumptions about SI She suggests that the interpreter s delivery represents not only the speaker but a multiplicity of speaker positions and that this multiplicity may well be a source of tension or vulnerability as well as strength for interpreters Her analysis also highlights how interpreters negotiate meaning in SI and underscores the need for more concerted efforts to explore SI in authentic contexts *De-* Ebru Diriker, 2004
