De Toekomst Der Religie:

De Toekomst Der Religie Simon Vestdijk,1947 *De toekomst der religie* Simon Vestdijk,1975 Authority in Question Hans van de Breevaart,2005 Religious Polemics in Context Theo Hettema,Christine Kooi,2021-10-11 Studies in Theology and Religion 11 Polemics as the art or practice of disputation or controversy is a living issue in matters of religion and is a major object of research for scholars in religious studies and theology The second international conference of the Leiden Institute for the Study of Religions LISOR held at Leiden in April 2000 was devoted to the subject of Religious Polemics in Context aiming at a further exploration of the notion of religious polemics together with the unfolding of a wide variety of case studies from various religious traditions The volume contains most of the papers read at the conference and offers contributions on general issues e g by M Dascal as well as on particular topics in the fields of history of religion e g Islam ancient Israel and early Christianity the history of Christianity and the social sciences of religion An annotated bibliography is added to this collection which may stimulate a further study of the topic The J. H. Bavinck Reader John Bolt,James D. Bratt,Paul J. Visser,2013-06-03 Crucial themes and issues explored by a premier missiologist Johan Herman Bavinck 1895 1964 was a prominent twentieth century Dutch Calvinist missiologist who wrestled with the tension between religious absolutism and relativism as many Christians do in today s pluralistic context The J H Bavinck Reader gathers together a choice selection of Bavinck s significant writings that are essential for understanding his theology of missions his approach to world religions and his religious psychology His treatment of religious consciousness and Christian faith expands on the brief treatment of it in his own work The Church Between Temple and Mosque The concluding chapters show how Bavinck s theoretical reflection on religious consciousness was rooted in his close observation during his years as a missionary in Indonesia Offering a constructive way forward Bavinck affirms both the particularity of salvation in Christ and the universality of the Christian hope A substantial introduction enhances the book with the most thorough biographical sketch of Bavinck available Changing the Scientific Study of Religion: Beyond Freud? Jacob A. v. van Belzen,2009-06-18 The psychoanalytic approach to religion has changed radically during the course of the twentieth century In both clinical and theoretical work in psychoanalysis developments have taken place that frequently are not noted by persons who assume that all that can be said has been said by Freud The study of religious phenomena persons events and traditions has always been a substantial part of applied psychoanalysis and here also major developments have taken place It is no exaggeration to state that the scientific study of religion has been revolutionized by the integration of psychological perspectives including the field of psychoanalysis This volume differs from other recent publications on the topic of psychoanalysis and religion in drawing upon the entire field of psychoanalytic involvement with religion It is interdisciplinary in approach and unlike other books on the topic brings together an exceptional combination of theoretical empirical and clinical studies No other book provides integrated examples of all three types of work *The Persistence of Religion* Bolle,2018-11-13 Preliminary
