Community Policing And Peacekeeping Advances In Police Theory And Practice:

Community Policing and Peacekeeping Peter Grabosky, 2009-06-25 In modern industrial societies the demand for policing services frequently exceeds the current and foreseeable availability of public policing resources Conversely developing nations often suffer from an inability to provide a basic level of security for their citizens Community Policing and Peacekeeping offers a fresh overview of the challenge

Community Policing Dominique Wisler, Ihekwoaba D. Onwudiwe, 2009-06-10 Community oriented policing COP is the ideology and policy model espoused in the mission statements of nearly all policing forces throughout the world However the COP philosophy is interpreted differently by different countries and police forces resulting in practices that may in fact run far afield of the community based themes of partnership

Police Investigative Interviews and Interpreting Sedat Mulayim, Miranda Lai, Caroline Norma, 2014-09-03 Police interviews with suspects and witnesses provide some of the most significant evidence in criminal investigations Frequently challenging they require special training and skills This interaction process is further complicated when the suspect or witness does not speak the same language as the interviewer A professional reference that can be used in police training or in any venue where an interpreter is used Police Investigative Interviews and Interpreting Context Challenges and Strategies provides solutions for the range of interview demands found in today's multilingual environments Topics include What interpreting is the skills required and the role of interpreters in any job context Investigative interviewing in law enforcement Concerns about interpreter intervention and its impact on interview outcomes The value of word based over meaning based interpretation in police and legal contexts Nonlinguistic factors that can have an impact on the interpreting process The book explores the multi faceted dynamics of conducting investigative interviews via interpreters and examines current investigative interviewing paradigms It offers strategies to help interpreters and law enforcement officers and provides examples of interpreted interview excerpts to enable understanding Although the subject matter and the examples in this book are largely limited to police interview settings the underlying rationale applies to other professional areas that rely on interviews to collect information including customs procedures employer employee interviews and insurance claim investigations This book is part of the CRC Press Advances in Police Theory and Practice Series

Policing Organized Crime Petter Gottschalk, 2009-08-26 When criminal activity is as straightforward as a child's game of cops and robbers the role of the police is obvious but today's bad guys don't always wear black In fact the most difficult criminals to cope with are those who straddle the gray divide between licit and illicit activity Many of these nefarious sorts operate on the fringe of society

Security Governance, Policing, and Local Capacity Jan Froestad, Clifford Shearing, 2012-12-13 The security governance of South Africa has faced immense challenges amid post apartheid constitutional and political transformations In many cases policing and governmental organizations have failed to provide security and other services to the poorest inhabitants Security Governance Policing and Local Capacity explores an

experiment that took place in Zwelethemba located in South Africa's Western Cape Province to establish legitimate and effective nonstate security governance within poor urban settlements. There has been and continues to be much reticence to endorsing private forms of security governance that operate outside of state institutions within local communities. Those initiatives have often led to situations where force is used illegally and punishment is dispensed arbitrarily and brutally. This book explores the extent to which this model of mobilizing local knowledge and capacity was able to effectively achieve justice, democracy, accountability and development in this region. Whenever possible, the book includes raw data and a thorough analysis of existing information on security governance. Examining this case and its outcome, the authors provide a theoretical analysis of the model used and present a series of design principles for future applications in local security governance. The book concludes that poor communities are a significant source of untapped resources that can, under certain conditions, be mobilized to significantly enhance safety. This volume is an important examination of experimental models and a presentation of new groundbreaking theory on engaging the local community in solving security governance problems.

Lloyd, 2013-11-25 Honor based violence (HBV) is a crime committed to protect or defend the honor of a family and/or a community. HBV has existed for thousands of years but has only very recently become a focus of law enforcement policy makers.

International Police Cooperation Frederic Lemieux, 2013-01-11 This book sets out to analyse the key emerging issues and theory and practice of international police cooperation. Contributors explore emerging initiatives and new challenges in several contexts at both national and international levels. *Los Angeles Police Department Meltdown* James

Lasley, 2012-08-08 Once considered among the most respected police departments in the world, the LAPD suffered a devastating fall from grace following the 1991 police officer beating of Rodney King and the Los Angeles riots stemming from the officer's acquittal in 1992. Unique to the literature of policing management and policy studies, *Los Angeles Police Department*

Police Reform in China Kam C. Wong, 2011-10-11 With nearly 20 percent of the world's population located in China, what happens there is significant to all nations. Sweeping changes have altered the cultural landscape of China and as opportunities for wealth have grown in recent years, so have opportunities for crime. *Police Reform in China* provides a rare and insightful glimpse of policing in the midst of such change. The book begins with a historical account of police reform in the region since 2000. Next, it discusses the difficulties encountered in trying to understand Chinese policing, such as outdated perceptions, misinformation, cultural ignorance, ideological hegemony and problems with paternalistic attitudes. The

book recommends studying China from a local perspective informed by local research and data suggesting that understanding China requires a cultural shift to the Chinese way of life in thinking and more importantly feeling The author then summarizes selected policy papers from Gongan Yanjiu a leading international policy journal He first documents how the thinking and aspirations of various generations of Chinese leaders from Mao to Deng and now Jiang and Hu came to affect Chinese policing in theory and practice He then addresses the emergence of a police legitimacy crisis as evidenced by the deterioration of public image and rebellions against police authority Demonstrating how old ideologies are increasingly in conflict with the values and lifestyles of a new mentality the book discusses steps that can be taken to improve professionalism The final chapters investigate such problems as abuses of discretion and the improper use of firearms and highlight the importance of understanding the Chinese people culture values and interests in order to truly effectuate successful police reform
