

A vintage, sepia-toned photograph of a large group of children, likely a school class, standing in many rows on a dirt area in front of a large, two-story brick building. The building has a prominent arched entrance on the left and several windows with white shutters. The children are dressed in early 20th-century clothing, with many wearing hats. The overall scene is a historical record of a community group.

Left Behind Lily Geismer, 2022-03-01 The 40 year history of how Democrats chose political opportunity over addressing inequality and how the poor have paid the price For decades the Republican Party has

been known as the party of the rich arguing for business friendly policies like deregulation and tax cuts But this incisive political history shows that the current inequality crisis was also enabled by a Democratic Party that catered to the affluent The result is one of the great missed opportunities in political history a moment when we had the chance to change the lives of future generations and were too short sighted to take it Historian Lily Geismer recounts how the Clinton era Democratic Party sought to curb poverty through economic growth and individual responsibility rather than asking the rich to make any sacrifices Fueled by an ethos of doing well by doing good microfinance charter schools and privately funded housing developments grew trendy Though politically expedient and sometimes profitable in the short term these programs fundamentally weakened the safety net for the poor This piercingly intelligent book shows how bygone policy decisions have left us with skyrocketing income inequality and poverty in America and widened fractures within the Democratic Party that persist to this day Rural America at the Crossroads ,1991
