

Critical College Reading (REA 054) — Reading and Reasoning Critically

Critical Thinking

- **Weighing Claims**—the ability to assess the strength of reasons and reasoning up against a counterpart.
- **Definitions**—What does the word mean independently?—Potential separation from actual use.
- **What does the word mean in the way the author is intending it?**—What is the word trying to do. “e.g. concretely”
- **What baggage or associations does it hold in the setting/situation in which it is used?** “e.g. Spiritual”

Evaluating/Presumptions

- **Evaluating Information**—Does the author reference outside authorities? Does the author depend on the use of facts/evidence to make the claim?
- **Questioning Assumptions**—What concepts are implied or beneath the statements? What needs to be true in order for the explicit statement to make sense?

Argumentative Ascension

- **Judgments**—How does one qualify or finally come to a conclusion given the reasons and material presented?
- **What ultimately needs to happen to convince that the presentation is truthful?**
- **When is point made**—a concept communicated? When is the reader still left wanting, in terms of being persuaded?

Knowledge and Persuasion

- **Knowledge presupposes** that the more access one has to it, the more likely one is to tell the truth in relation to the subject.
- **Knowledge always admits** that there are levels of knowing and that having access to it allows one the privilege of authority.
- **Forms of knowledge need to be in combination** with one another in order to maintain themselves. The knowledge in one domain always influences what is positively known in another.
