Critique Du Droit Travail:

Critique du droit du travail Alain Supiot, 2015-08-19 Le travail met le droit et les institutions à l'épreuve c'est dans ces preuves qu'a été forgé le droit du travail comme alliage de tous les contraires le privé et le public l'individuel et le collectif le droit des biens et le droit des personnes l'égalité et la hiérarchie Le propos de ce manuel est de démontrer les ressorts de ce droit en perpétuelle évolution

General course on private international law, 1979-11-05 **Recueil Des Cours, Collected Courses, 1967** Académie De Droit International De La Haye, 1969 Recueil Des Cours, Collected Courses, 1975, 1976-07-28 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects The work of the Hague Academy receives the support and recognition of the UN Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law

Théories critiques et droit international Rémi Bachand, 2013-08-27 Au sein de la francophonie le champ du droit international semble offrir beaucoup plus de résistance au développement d'un espace critique que dans le monde anglophone Sauf exceptions la critique francophone semble souvent s'y résigner quelques chercheurs remettant en question le rôle du droit international dans la perpétuation des structures de domination et d'autres qui ont intégré la critique post positiviste et poststructuraliste du droit international mais qui peinent à faire une critique radicale de ses effets sur les structures de pouvoir politiques économiques et culturelles Plus important encore ces voix dissidentes restent marginales et ont un impact limité sur les pratiques institutionnelles Ce livre cherche à rompre avec cette situation en rassemblant des contributions d'une dizaine de jeunes auteurs vivant de près ou de loin dans le droit international et qui s'interrogent sur les fondements d'une théorie critique dans ce champ En plus de contributions proposant des analyses critiques différentes problématiques propres au droit international ce livre offre des réflexions ce qu'est une théorie critique sur les fondements historiques épistémologiques et méthodologiques de celle-ci ainsi que sur les stratégies adoptées pour en assurer la diffusion l'intérieur de la francophonie

Imperativeness in Private International Law Giovanni Zarra, 2022-01-27 This book centres on the ways in which the concept of imperativeness has found expression in private international law PIL and discusses imperative norms and imperativeness as their intrinsic quality examining the rules or principles that protect fundamental interests and/or the values of a state so as to require their application at any cost and without exceptions Discussing imperative norms in PIL means referring to international public policy and overriding mandatory rules in this book the origins content scope and effects of both these forms of imperativeness are analyzed in depth This is a subject deserving further study considering that very divergent opinions are still emerging within academia and case law regarding the differences between international public policy and overriding mandatory rules as well as with

regard to their way of functioning By using an approach mainly based on an analysis of the case law of the CJEU and of the courts of the various European countries the book delves into the origin of imperativeness since Roman law explains how imperative norms have evolved in the different conceptions of private international law and clarifies the foundation of the differences between international public policy and overriding mandatory rules and how these concepts are used in EU Regulations on PIL and in the practice related to these sources of law Finally the work discusses the influence of EU and public international law sources on the concept of imperativeness within the legal systems of European countries and whether a minimum content of imperativeness mainly aimed at ensuring the protection of fundamental human rights in transnational relationships between these countries has emerged The book will prove an essential tool for academics with an interest in the analysis of these general concepts and practitioners having to deal with the functioning of imperative norms in litigation cases and in the drafting of international contracts Giovanni Zarra is Assistant professor of international law and private international law and transnational litigation in the Department of Law of the Federico II University of Naples

Ibss: Sociology: 1998 Compiled by the British Library of Political and Social Science,1999-12-16 Renowned for its international coverage and rigorous selection procedures this series provides the most comprehensive and scholarly bibliographic service available in the social sciences Arranged by topic and indexed by author subject and place name each bibliography lists and annotates the most important works published in its field during the year of 1997 including hard to locate journal articles Each volume also includes a complete list of the periodicals consulted **Democratic Work** Alexis Cukier,2023-05-08 This book proposes a radical transformation of labour institutions in order to lay the foundation for the democratization of society rather than capitalist accumulation Using an empirical analysis of the contemporary world of work Alexis Cukier examines the democratic meaning of today s critique of work organization and questions the theoretical models linked to class struggles and to industrial democracy to conceive of a democratic work Considering particular historical experiments such as cooperatives self management worker s councils that try to realize democracy at work this book also analyzes the political issue of democratic work in relation to issues such as labour law feminist struggles and political ecology Ultimately this book proposes some institutional paths that could overtake the divide between the rights of the citizens and the rights of the workers arguing finally if we really want to radicalize democracy we should begin with democratizing work

Injustice at Work Francois Dubet,2015-12-03 Though it is difficult to describe what a just world should be everyone is able to denounce injustice when he she is a victim or a witness of it Based on a long term study of workers this new book tests and expands upon prevailing theories of justice by Rawls Nozick Taylor Walzer and other important philosophers Injustice at Work describes the way workers perceive social injustice It reveals why they so often feel unequal scorned dominated and alienated at work The book develops three principles of justice equality merit and autonomy showing how individuals combine them in singular moral and social experiences that constitute people s relation to society Dubet also

shows in a liberal and globalized society why it has become more and more difficult to denounce the social causes of injustice and fight them *Les Evolutions du droit, contractualisation et procéduralisation* Christian Pigache, 2004 Le présent ouvrage rassemble les travaux consacrés lors des première et deuxième universités de droit du barreau de Rouen la contractualisation et la procéduralisation du droit deux mouvements transversaux qui irriguent le droit contemporain et donnent de nouvelles pratiques Universitaires avocats et magistrats se sont réunis pour analyser de façon critique dans une perspective aussi bien juridique que philosophique et sociologique ces évolutions du droit qui mettent l'accent sur le rôle du contrat et de la procédure dans la société L'ouvrage s'adresse non seulement aux théoriciens et praticiens du droit mais aussi tous ceux qui ont une lecture différente des phénomènes juridiques intermédiaires
