Crossing The Threshold Of Love A New Vision Of Marriage:

Crossing the Threshold of Love Mary Shivanandan, 1999 The papal encyclical *Humanae Vitae* predicted the disintegration of marriage and family life partly as a result of the widespread use of contraception Pope John Paul II has since addressed the problem by articulating a fresh understanding of marriage love and sexuality which takes account of the dignity of the human person and especially of women In this most exhaustive and scholarly assessment of John Paul II's Christian anthropology ever written Mary Shivanandan examines the scientific data and the theological analysis that underlie his teachings on marriage and sexuality Her book will be an essential text for the study of the development meaning and implications of Catholic doctrine in this controversial area It is both lucid and multi disciplinary Its appearance marks a new stage in the debate over sexuality in the modern world

New Oxford Review An exceptionally brilliant study Shivanandan very accurately and clearly sets forth the major ideas developed at length by Pope John Paul II in many of his writings She has entered into serious dialogue with contemporary thinking regarding the nature of the human person the meaning of the human body and the meaning of human sexuality relating and contrasting this thinking with that of John Paul II

Rev Msgr Peter J Elliott Casa Internazionale del Clero Rome The monumental text book the prolife movement has been waiting for This is the definitive study of the Pope's innovative theology of the body and its implications for human life and marriage

Faith Culture Bulletin This is an exceptional study Shivanandan not only offers a tour de force of the evolution of John Paul's thought but also demonstrates its far reaching implications for the lives of couples families and whole societies She unmask the deception of our safe sex society by demonstrating that only when we come to see the body and sexual intercourse as the expression of transcendence of the person will we be able to cross the threshold of love

what this can bring to communion in one flesh A full index of subjects as well as a generous bibliography enrich this work Liguorian Shivanandan is largely successful in bringing out the main elements of the pope s personalism She has

Catholic Sexual Morality Robert Fastiggi,2018-01-04 Many people today believe that the traditional Catholic view of sex is antiquated unrealistic and potentially harmful In Catholic Sexual Morality Dr Robert Fastiggi asks whether the permissive sexual attitude of today s culture is really contributing to deeper love better relationships and true happiness for men women children and families He begins with the example of St Augustine who recognized he was a slave to lust and in need of true freedom Fastiggi then examines the foundations for Catholic sexual morality in Scripture reason and human experience The hope is that people will realize that the Catholic Church is not against sex but sees sexual intimacy as something so beautiful and life giving that it requires the stability of marriage for its true and rightful expression Catholic Sexual Morality is grounded in the belief that the church s teachings on sex correspond to God s plan for human happiness These teachings are challenging and the church understands how easy it is to fail in sexual matters God s mercy however is more powerful than human weakness and sin This book explains the reasons why the Catholic Church teaches as she does on matters such as pornography masturbation fornication adultery contraception divorce and homosexual acts It presents these teachings in a realistic way with full recognition of the reasons why people reject them The ultimate desire is to help people understand that Catholic sexual morality is not a creation of church leaders but a response to what God has made known to us in Sacred Scripture and the natural law In a world filled with infidelity divorce wounded children and broken hearts the wisdom of traditional Catholic sexual morality deserves a more sympathetic view not just because it is Catholic but because it is true

Because of Our Fathers Tyler Rowley,2020 A father the head of the household as Saint Paul says has a crucial role and responsibility in his family not only materially but spiritually This is no outdated biblical cliché but a biological sociological and metaphysical reality that we too often fail to recognize The example of a father can leave an indelible imprint on the character of his children In Because of Our Fathers twenty three Catholics including Patrick Madrid Abby Johnson Bishop Joseph Strickland Father Paul Scalia Jesse Romero Anthony Esolen Father Rocky Christopher Check and Father Gerald Murray give portraits of their own fathers as conduits and models of Christian love Ranging from the heroic to the ordinary these powerful testimonies will inspire men to consider more deeply the amazing privilege that God has given them to become despite their imperfection a living image of our Father in Heaven The introduction and conclusion by editor Tyler Rowley serve as a wake up call Illustrating the Church s teaching on fatherhood with current research on the family he makes clear the urgent need for men who take seriously the God given grace filled task of raising children [Open Embrace](#)

Sam Torode,Bethany Torode,2002-03-31 In a fresh vision of love sex and marriage the Torodes challenge the widespread acceptance of contraception and offer a model of family planning that celebrates new life and respects our bodies God given design

Sacramental Presence after Heidegger Conor Sweeney,2015-01-19 Theology after Heidegger must take into account history and language as constitutive elements in the pursuit of meaning Quite often this prompts a hurried flight from metaphysics to an embrace of an absence at the center of Christian narrativity In this book Conor Sweeney explores the postmodern critique of presence in

the context of sacramental theology engaging the thought of Louis Marie Chauvet and Lieven Boeve Chauvet is an influential postmodern theologian whose critique of the perceived onto theological constitution of presence in traditional sacramental theology has made big waves while Boeve is part of a more recent generation of theologians who even more wholeheartedly embrace postmodern consequences for theology Sweeney considers the extent to which postmodernism a la Heidegger upsets the hermeneutics of sacramentality asking whether this requires us to renounce the search for a presence that by definition transcends us Against both the fetishization of presence and absence Sweeney argues that metaphysics has a properly sacramental basis and that it is only through this reality that the dialectic of presence and absence can be transcended The case is made for the full but restless signification of the mother's smile as the paradigm for genuine sacramental presence

Procreation and the Spousal Meaning of the Body Angel Perez-Lopez, 2017-02-15 This book attempts to aid those who are serious about the study of Pope Saint John Paul II's theology of the body It is directed especially to those who teach it at both an academic and a parish level It offers them the necessary scholarly background to be able to faithfully present John Paul II's work understanding it with depth and in continuity with Saint Thomas Aquinas and the Second Vatican Council

From Truth and truth Francis Etheredge, 2016-04-26 The final book of this trilogy explores reason at work in the nature of faith cf Fides et Ratio 43 indeed although faith is of its nature different from reason faith cannot exist except through grace assisted reason Volume One briefly meditated on the metaphysics of meaning which entailed considering the intimate interrelationship of truth and existence In this volume however it becomes clear that there is an intrinsic complementarity in the very nature of created being a complementarity between the literal and spiritual sense of what exists Thus for example a seed is both what actually exists and at the same time it can adequately express the beginning of the supernatural life sown in the sacrament of Baptism This leads to an almost literary argument for there being a single cause of all creation in that there is an incredible coherence of meaning throughout the whole More specifically the book discusses various questions of a bioethical nature and more generally offers a radical investigation of the nature of man male and female for in a word the origin nature and action of the human person require constant reciprocal reflection Thus there are various essays on different aspects of man male and female ranging from a consideration of God expressing the mystery of the Blessed Trinity through our participation in His own Being to the transition from a Jewish to a Christian understanding of marriage to a marital spirituality Finally faith in action ranges from being open to life to pilgrimages as a family and the slow but real discovery that there is a radical nature to our salvation in Christ that even if natural truth leads inexorably to the trembling outreaches of reason there is nevertheless a gratuitous Revelation which comes to meet and develop the life of us all
