Clear Intent The Government Coverup Of The Ufo Experience:

Clear Intent Lawrence Fawcett, Barry J. Greenwood, 1984-01-01 Discusses the government's top secret investigations of UFO sightings and argues that the government possesses secret proof of the existence of UFOs **The CIA UFO Papers** Dan Wright, 2019-09-01 The secret CIA papers that prove that the government has been tracking UFOs and extraterrestrials for over fifty years In autumn 2016 the CIA sent to its website a cache of electronic files previously released under the Freedom of Information Act but housed at the National Archives Among a variety of subjects were unidentified flying objects Finally a stockpile of reports and correspondences were available for serious UFO researchers to examine at home This book consists of selections from those secret files Dan Wright spent eighteen months selecting editing and organizing the 550 files that are relevant to UFO research and has produced a chronological collection of CIA documents spanning 1949 to 2000 Each chapter focuses on a particular year The summary of documents for each year is followed by a section called While You Were Away from Your Desk which provides historical and cultural context for the document summaries and examines other sightings and contacts that are not mentioned in the CIA files Among the fascinating tidbits are A memo to J Edgar Hoover about flying saucer reports The 1949 conference at Los Alamos that include Edward Teller upper atmosphere physicist Dr Joseph Kaplan and other renowned scientists in which the participants debated whether recent incidents were natural phenomena or UFO sightings This is a must have book for those fascinated by the history of UFO sightings and those interested in government secrets and cover ups **The Myth and Mystery of UFOs** Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard's wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books

movies and television series blurred the boundaries between science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard's study is a sky watcher's guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth

UFOs and the National Security State Richard Dolan, 2002-06-01 The documentation is spectacularly good the best ever on the UFO subject And the conclusion is overwhelmingly powerful Whitley Strieber New York Times bestselling author Richard M Dolan is a gifted historian whose study of US Cold War strategy led him to the broader context of increased security measures and secrecy since World War II One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects UFOs and the National Security State is the first volume of a two part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present Working from hundreds of declassified records and other primary and secondary sources Dolan centers his investigation on the American military and intelligence communities demonstrating that they take UFOs seriously indeed Included in this volume are the activities of more than fifty military bases relating to UFOs innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy the CIA sponsored Robertson Panel and the Condon Committee Report Dolan highlights the development of civilian anti secrecy movements which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent closing of the door during the Nixon administration A thorough and monumental undertaking Dr Edgar Mitchell Apollo 14 astronaut If there ever had been a must read must have book on the subject UFOs and the National Security State is it I promise you that once you've read it you'll never view the subject of UFOs or the American military intelligence establishment in the same light again Don Ecker senior editor UFO Magazine

[A History of Military Encounters with UFOs](#) Robert Allred, 2024-12-30 This book explores the long history of military encounters with UFOs revealing hidden incidents of dogfights nuclear interference and mysterious confrontations with unidentified aerial phenomena Military bodies across the world have encountered experimented with and even had combat with UFOs or as the U S military now define them Unidentifiable Aerial Phenomenon or UAPs These observations and engagements have occurred since ancient times and on all continents Different nations and cultures have had vastly different analyses of the UFO UAP phenomenon from the Roman Empire to Nazi Germany and the Soviet Union and Communist China to the Western democracies The UFO UAP phenomenon has not diminished and has in fact grown in proportion in recent years and has now assumed the mantle of legitimacy in government circles the media and among the general public What is less well known or even concealed are the encounters that the military have had with UFOs some of which have even proved fatal to the

terrestrials concerned There were reported dogfights with UFOs and German aircraft in the First World War and in the Second World War reports of what became known as Foo Fighters became commonplace However it was after the war that UFO sightings increased exponentially amongst which was a dogfight with a Mustang P 51 and a UFO in October 1948 and two years later for two consecutive weekends in 1952 UFOs hovered over Washington D C Attempts were made by the U S Air Force to intercept the strange craft but were outrun by the UFOs UFOs UAPs may have tampered with world nuclear forces including shutting down strategic missiles of the United States and conversely activating Soviet ICBMs almost setting off an unordered by Soviet authorities launching of atomic warheads against the United States UFOs may also have returned fire against American military forces during the Vietnam War sending projectiles back at patrol boats that had been fired by those military river craft at UFOs hours or days before United States Air Force personnel including a Lieutenant Colonel also encountered UFOs on the ground and in the air at Rendlesham USAF RAF base in the UK in 1980 UFOs have played cat and mouse games with the latest fighter bombers of the United States Navy since 2004 and these events have been captured on videotape and are verified to have occurred by the pilots themselves As readers will discover from the mass of evidence presented in this book it is no longer a question of whether UFOs exist or not and that not only are such phenomenon an incontrovertible fact but that the United States has crafted plans on how to resist an alien invasion But is there any need for us humans to be concerned about the alien presence in the skies that surround our planet Yes be very concerned UFOs - A Scientific Inquiry Christopher Montgomery,2019-03-04 This book deals with the relationship between the appearance of UFOs as part of our conscious reality and the physical evidence left behind that substantiates that reality The book shows how UFO evidence is examined and evaluates the mind s ability to distort and alter the information that is perceived further complicating the identification of the unidentified flying object The phenomenon is examined from a historical perspective tracing their interaction with the development in our civilization and culture The startling conclusion addresses the issue of what their presence means in light of the new millennium and how their appearance in ancient history has been a harbinger of major change and upheaval on the earth A UFO report form is provided by the author in the appendix at the end of the book A continued study of and investigation into the UFO phenomenon is encouraged This book includes common modalities that the reader can access to conduct their own continuing investigations *Interdimensional Universe* Philip J. Imbrogno,2013-02-08 Over the course of his thirty years of investigation into UFOs including his own field research photographic evidence and meticulously compiled case studies Philip Imbrogno has provided fascinating new insight into paranormal phenomena In this book he reveals for the first time the detailed findings of prominent paranormal experts as well as his own firsthand experiences Using the latest quantum theories Imbrogno sheds new light on classic UFO cases government cover ups and the hidden connections between UFOs and other unexplained phenomena from crop circles and animal mutilations to angels and jinn or genies Imbrogno s insider knowledge spans the very early UFO reports to present

day sightings He personally investigated four of the best known UFO flaps of the modern era Hudson Valley Phoenix lights the Belgium sightings and the Gulf Breeze Florida sightings and shares information never released before including photographic evidence that something very unusual is taking place on planet Earth *Top Secret Alien Abduction Files* Nick Redfern, 2018-11-01 Why and how the government monitors those who have been kidnapped by strange unearthly beings with even stranger agendas from the author of *Final Events* For decades people have reported close encounters with extraterrestrial entities Witnesses describe being kidnapped by large headed black eyed creatures from other worlds Those same creatures have become popularly known as the Grays There is however another aspect to the alien abduction controversy Abductees very often report being followed and spied upon by military and government personnel It is typical for abductees to see black helicopters hovering directly over their homes in an intimidating manner Phone calls are monitored Emails are hacked into Strange men dressed in black suits are seen photographing the homes of the abductees All of this brings us to the matter of what have become known in the domain of alien abduction research as Military Abductions or MILABS According to numerous abductees after being kidnapped by aliens they are kidnapped again by the government These follow up events are the work of a powerful group hidden deep within the military and the intelligence community It is the secret agenda of this highly classified organization to figure out what the so called Grays are really up to And the best way for the government to get the answers is to interrogate those who have come face to face with the UFO phenomenon the abductees Why is the government secretly compiling files on alien abductees Is the alien abduction issue so sinister that it has become a matter of national security proportions *Before and After Roswell* David A. Clary, 2001-01-22 The flying saucer has been the most vivid and persistent image in American life of the last half century It has also generated more controversy and rancor than anything else that might be characterized as a fantasy It is malleable suiting a wide variety of beliefs and outlooks touching nearly every public concern It arrived as a mysterious threat from above a metaphor for The Bomb It transformed swiftly into a hope from above promising to save us from ourselves Renamed UFO it became a symbol for those who distrusted the government Along its way through the postwar skies it acquired a cargo that included every species of hoax craziness lunacy and even sexual fantasy along with a fair amount of scientific and political baggage The flying saucer myth says much about how Americans react to the unexpected Before and After Roswell The Flying Saucer in America 1947 1999 places the flying saucer idea in the context of history politics entertainment and science to arrive at an explanation of what it is all about and how it got that way Because the Roswell incident the story that a flying saucer crashed near Roswell New Mexico in 1947 and that the government has hidden the truth about it ever since has dominated the subject recently the book is anchored around that particular story while demonstrating that the flying saucer did exist before and after Roswell It corrects some misconceptions including one that holds that because a majority of people say they believe in UFOs they therefore believe in a conspiracy to cover up the truth about them After detailing what actually happened in

Roswell in 1947 the book takes up the birth of the flying saucer earlier that year underscoring the fact that the name originally denoted its movement not its shape The text then examines the Air Forces and CIAs responses to the phenomenon and the rise of competing bands of ufologists true believers and skeptics to dominate debate over it The book also addresses Cold War contributions to the UFO issue and the role of Hollywood in providing the images that defined it Along the way it describes the crashed saucer tradition the contactees abductions men in black the Bermuda Triangle ancient astronauts cattle mutilations the little gray alien SETIs Drake Equation sex and the flying saucer and the rise of a new ufology emanating from the conspiracy culture growing out of the Kennedy assassination mythology and the Watergate scandal Part Two of Before and After Roswell begins with the invention of the incident in 1980 then traces the history of the flying saucer idea to the end of the century Important here are the submersion of the saucer into the larger anti government conspiracy tradition of that period and the increasing domination of the subject by television including Area 51 a myth invented on a TV show and the combined influence of reality based cable documentaries and the amazingly popular series The X Files Also addressed are such things as crop circles the MAJIC hoax the face on Mars UFO conspiracy fiction and the explosion of the abduction belief A chapter on The Battle of Roswell traces the evolution of that controversy through a succession of books by ufologists in the end it broke down into disputed orthodoxies and feuds over who had the real crash site to charge admission to When boosters tried to turn Roswell into a tourist attraction their quarrels and mercenary outlook alienated the town and made the annual UFO Encounter a flop The book concludes that the flying saucer is not a thing but an idea and one that will overcome the burden of
