Designing Transformative Multicultural Initiatives Theoretical Foundations Practical Applications And Facilitator Considerations:

Designing Transformative Multicultural Initiatives Sherry K. Watt, 2023-07-03 Higher education is facing a perfect storm as it contends with changing demographics shrinking budgets and concerns about access and cost while underrepresented groups both in faculty ranks and students are voicing dissatisfaction with campus climate and demanding changes to structural inequities This book argues that to address the inexorable changes ahead colleges and universities need both to centralize the value of diversity and inclusion and employ a set of strategies that are enacted at all levels of their institutions It argues that individual and institutional change efforts can only be achieved by implementing diversity as a value that is embracing social change efforts as central and additive rather than episodic and required and provides the research and theoretical frameworks to support this approach as well as tools and examples of practice that accomplish change The contributors to this book identify the elements that drive successful multicultural initiatives and that strengthen the effectiveness of campus efforts to dismantle systemic oppression as well as the individual and organization skills needed to manage difference effectively Among these is developing the capacity of administrators faculty and student affairs professionals as conscious scholar practitioners to sensitively manage conflicts on campus deconstruct challenging structures and reconstruct the environment intentionally to include in respectful ways experiences of historically marginalized groups and non dominant ways of being in the world The books focus on developing capacities for multicultural competence aligns with higher education s increasing emphasis on civic engagement and institutional goals promote skills to interact in meaningful and responsible ways around difference whether of people ideas or identities **Designing Transformative Multicultural Initiatives** provides guiding principles and practical strategies to successfully transform higher education to become fully inclusive and advance the success of all constituents and stakeholders [Multicultural and Diversity Issues in Student Affairs Practice](#) Naijian Zhang, Mary F. the postsecondary sector authors were encouraged to design supplemental material for their chapters such as training modules study guides case studies guides for utilizing critical research approaches and design and interactive activities that can be replicated in various settings on campus e g the classroom residence halls student organization trainings etc

Building Gender Equity in the Academy Sandra Laursen, Ann E. Austin, 2020-11-24 An evidence based action oriented response to the persistent everyday inequity of academic workplaces Despite decades of effort by federal science funders to increase the numbers of women holding advanced degrees and faculty jobs in science and engineering they are persistently underrepresented in academic STEM disciplines especially in positions of seniority leadership and prestige Women filled 47% of all US jobs in 2015 but held only 24% of STEM jobs Barriers to women are built into academic workplaces biased selection and promotion systems inadequate structures to support those with family and personal responsibilities and old boy networks that can exclude even very successful women from advancing into top leadership roles But this situation can and must change In Building Gender Equity in the Academy Sandra Laursen and Ann E Austin offer a concrete data driven approach to creating institutions that foster gender equity Focusing on STEM fields where gender equity is most lacking Laursen and Austin begin by outlining the need for a systemic approach to gender equity Looking at the successful work being done by specific colleges and universities around the country they analyze twelve strategies these institutions have used to create more inclusive working

environments including implementing inclusive recruitment and hiring practices addressing biased evaluation methods establishing equitable tenure and promotion processes strengthening accountability structures particularly among senior leadership improving unwelcoming department climates and cultures supporting dual career couples offering flexible work arrangements that accommodate personal lives promoting faculty professional development and advancement Laursen and Austin also discuss how to bring these strategies together to create systemic change initiatives appropriate for specific institutional contexts Drawing on three illustrative case studies at Case Western Reserve University the University of Texas at El Paso and the University of Wisconsin Madison they explain how real institutions can strategically combine several equity driven approaches thereby leveraging their individual strengths to make change efforts comprehensive Grounded in scholarship but written for busy institutional leaders Building Gender Equity in the Academy is a handbook of actionable strategies for faculty and administrators working to improve the inclusion and visibility of women and others who are marginalized in the sciences and in academe more broadly
