Designing Our Way to a Better World Thomas Fisher, 2016-05-01 Envisioning what we need when it doesn t yet exist this Thomas Fisher tells us is what

design does And if what we need now is a better world functioning schools working infrastructure thriving cities why not design one Fisher shows how the principles of design apply to services and systems that seem to evolve naturally systems whose failures sometimes seem as arbitrary and inevitable as the weather But the invisible systems we depend on for our daily lives in education politics economics and public health are designed every bit as much as the products we buy and the environments we inhabit and are just as susceptible to creative reimagining Designing Our Way to a Better World challenges the assumptions that have led to so much poor performance in the public and private realms that our schools cannot teach creativity that our governments cannot predict the disasters that befall us that our health system will protect us from pandemics that our politics will remain polarized that our economy cannot avoid inequality and that our industry cannot help but pollute the environment Targeting these assumptions Fisher s approach reveals the power of design to synthesize our knowledge about the world into greater wholes In doing so this book opens up possible futures and better futures than the unsustainable and inequitable one we now face

Debating Disaster Risk Gonzalo Lizarralde, Lisa M. Bornstein, Tapan Dhar, 2025-08-19 Dealing with the risks of climate change and disaster is a political process It produces winners and losers mobility and permanence radical change and continuity relief and suffering For some it ultimately leads to life or death Yet consultants academics humanitarian agents and politicians often simply propose well intentioned ideas resilience sustainability community participation emergency shelter green development while failing to perceive the blind spots and unintended consequences of such approaches Debating Disaster Risk brings together leading global experts to explore the controversies that emerge and the tough decisions that must be made when cities people and the environment are at risk Scholars and practitioners discuss the challenges of reducing vulnerability and rebuilding after destruction in an accessible and lively debate format with commentary by researchers students and development workers from across the world They emphasize the ethical consequences of decisions about how cities and communities should prepare for and react to disasters considering issues such as housing environmental protection urban development and infrastructure recovery A valuable resource for scholars students and practitioners in a variety of fields this book provides an in depth analysis of the difficult choices we face in dealing with disasters As climate change accelerates Debating Disaster Risk invites readers to grapple with the most pressing controversies

Ardeth #01 (I - 2017) AA.VV., 2017-08-30 Unlike the many magazines that revolve around the architectural world Ardeth concerns neither with outcomes architecture nor with the authors architects Ardeth concerns instead with their operational work i e projects The shift from subjects their good intentions as taught in Universities and reclaimed in the profession to objects the products of design at work within the social system that contains them engenders an analytical and falsifiable elaboration of the complex mechanisms that an open practice such as design involves Through a process of disciplinary redefinition Ardeth explores the falsifiability of design hypotheses as the object that allows the project to scientifically confront errors and approximations

Climate-Adaptive Design in High

Mountain Villages Carey Clouse, 2020-10-15 Drawing from the unique context and climate of the Himalaya this book highlights several innovative design interventions shaped by a myriad of social cultural environmental and political factors that have been employed in villages to combat climate change Climate Adaptive Design in High Mountain Villages focuses on Ladakh an outpost on the front lines of climate change and the region's creative responses to the pressing issues of food security water management energy efficiency design aid and material resources in the Anthropocene These strategies from artificial glaciers to tree armor showcase the breadth of creative solutions already underway In doing so the research addresses the broader concept of climate adaptive design and how it informs the disciplines of architecture landscape architecture and urban planning An ideal read for academics researchers and students in these fields this book presents a focused investigation into climate adaptive strategies that could provide transferable solutions for the rest of the world

Futureproof Jon Coaffee, 2019-01-01 A compelling and definitive account of why we need to radically rethink our approach to dealing with catastrophic events Catastrophic events such as 9 11 Hurricane Katrina and the Tohoku Triple Disaster of earthquake tsunami and nuclear meltdown that hit the eastern seaboard of Japan in 2012 are seen as surprises that have a low probability of occurring but have a debilitating impact when they do In this eye opening journey through modern and ancient risk management practices Jon Coaffee explains why we need to find a new way to navigate the deeply uncertain world that we live in Examining how governments have responded to terrorist threats climate change and natural hazards Coaffee shows how and why these measures have proven inadequate and what should be done to make us more resilient While conventional approaches have focused on planning and preparing for disruptions and enhanced our ability to bounce back our focus should be on anticipating future challenges and enhancing our capacity to adapt to new threats

Architecture Beyond Criticism Wolfgang F. E. Preiser, Aaron T. Davis, Ashraf M. Salama, Andrea Hardy, 2014-11-27 For the first time this book demonstrates that the two paradigms of architectural criticism and performance evaluation can not only co exist but complement each other in the assessment of built works As architecture takes more principled stances worldwide from environmental sustainability to social cultural and economic activism this book examines the roles of perceived and measured quality in architecture By exploring in tandem both subjective traditional architectural criticism and environmental design and performance evaluation and its objective evaluation criteria the book argues that both methodologies and outcomes can achieve a comprehensive assessment of quality in architecture Curated by a global editorial team the book includes Contributions from international architects and critics based in the UK USA Brazil France Qatar Egypt New Zealand China Japan and Germany Global case studies which illustrate both perspectives addressed by the book and comparative analyses of the findings A six part organization which includes introductions and conclusions from the editors to help guide the reader and further illuminate the contributions By presenting a systematic approach to assessing building performance design professionals will learn how to improve building design and performance with major

stakeholders in mind especially end users occupants

Building Performance Evaluation Wolfgang F.E. Preiser, Andrea E. Hardy, Ulrich Schramm, 2017-08-30 The main aim of this book is to present an intriguing retrospective of Building Performance Evaluation BPE as it evolved from Post Occupancy Evaluation POE over the past 25 years On one hand this is done by updating original authors chapter content of Building Evaluation the first edition published in 1989 That in turn is augmented by an orientation toward current and future practice on the other including new authors who are engaged in ongoing cutting edge projects Therefore individual methodology oriented chapters covering the fundamental principles of POE and BPE go along with major thematic chapters topics of which like sustainability or integration of new technologies are addressed in a diversity of case studies from around the globe Research methodologies and framework of POEs continue to evolve POEs are one step on the larger scale of BPE in understanding how buildings function after they are occupied This resource helps architects building owners and facility managers understand the implications and reactions to the facilities that they designed built and or commissioned By considering the whole process from conception to future uses of the building there can be a more holistic approach to the planning programming design construction occupancy and future adaptability of the structure This book is dedicated to first editor Wolfgang F E Preiser who passed away during the process of editing and reviewing chapters of this volume

Designing To Avoid Disaster The Nature Of Fracture Critical Design: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. Designing To Avoid Disaster The Nature Of Fracture Critical Design : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Designing To Avoid Disaster The Nature Of Fracture Critical Design : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
