Destroying Our Private Cities Building Our Spiritual Life:

Destroying Our Private Cities, Building Our Spiritual Life Chip M. Anderson, 2004 Anderson argues that every time the church adopts the surrounding culture's values it dies a little His lay commentary enables readers to hear Paul's argument through Philippians and how the church's flirtation with individualism has affected the Christian faith and the life of the church

Wasted Evangelism Chip M. Anderson, 2013-10-04 What is the relationship between the gospel and the church's responsibility toward the poor Can social action be evangelism Wasted Evangelism is an exploration in the Gospel of Mark on the subject of evangelism and social action A proclamation centered definition of evangelism based on the etymology of the word evangelize and a few isolated proof texts is devoid of much of the biblical content that Mark offers to us through his Gospel detaching the concept of evangelism from the narrative meaning that Mark gives to the gospel of Jesus Christ In Wasted Evangelism Chip Anderson develops an exegetically based narrative understanding of biblical evangelism which according to Mark's Gospel includes God's care for the economically vulnerable and his concern for the issues of poverty The studies gathered in this volume propose that social action should not be considered a separate distinct responsibility for the church but is rather vital a component of evangelism A close examination of Mark's Gospel and the biblical texts associated with idolatry poverty and justice provides an opportunity for church leadership to rethink the evangelistic activities of their churches and to reconsider what it means to engage their surrounding communities as agents of God's kingdom

The Spirit of Cities Daniel A. Bell, Avner de-Shalit, 2013-10-27 A lively and personal book that returns the city to political thought Cities shape the lives and outlooks of billions of people yet they have been overshadowed in contemporary political thought by nation states identity groups and concepts like justice and freedom The Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values In the ancient world Athens was synonymous with democracy and Sparta represented military discipline In this original and engaging book Daniel Bell and Avner de Shalit explore how this classical

idea can be applied to today's cities and they explain why philosophy and the social sciences need to rediscover the spirit of cities Bell and de Shalit look at nine modern cities and the prevailing ethos that distinguishes each one The cities are Jerusalem religion Montreal language Singapore nation building Hong Kong materialism Beijing political power Oxford learning Berlin tolerance and intolerance Paris romance and New York ambition Bell and de Shalit draw upon the richly varied histories of each city as well as novels poems biographies tourist guides architectural landmarks and the authors own personal reflections and insights They show how the ethos of each city is expressed in political cultural and economic life and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism The Spirit of Cities is unreservedly impressionistic Combining strolling and storytelling with cutting edge theory the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences It is a must read for lovers of cities everywhere In a new preface Bell and de Shalit further develop their idea of civic pride the pride city dwellers feel for their city and its ethos over that of others
