Detecting Texts Detecting Texts:

Detecting Texts Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07 Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end there is another kind of detective story the history of which encompasses writers as diverse as Poe Borges Robbe Grillet Auster and Stephen King that ends with a question rather than an answer The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity As the contributors to *Detecting Texts* contend such stories belong to a distinct genre the metaphysical detective story in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world *Detecting Texts* includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments In addition to the editors contributors include Stephen Bernstein Joel Black John T Irwin Jeffrey T Nealon and others

Video Text Detection Tong Lu, Shivakumara Palaiahnakote, Chew Lim Tan, Wenyin Liu, 2014-07-23 This book presents a systematic introduction to the latest developments in video text detection Opening with a discussion of the underlying theory and a brief history of video text detection the text proceeds to cover pre processing and post processing techniques character segmentation and recognition identification of non English scripts techniques for multi modal analysis and performance evaluation The detection of text from both natural video scenes and artificially inserted captions is examined Various applications of the technology are also reviewed from license plate recognition and road navigation assistance to sports analysis and video advertising systems Features explains the fundamental theory in a succinct manner supplemented with references for further reading highlights practical techniques to help the reader understand and develop their own video text detection systems and applications serves as an easy to navigate reference presenting the material in self contained chapters
