Accountability for Effectiveness in Global Governance John Kirton, Marina Larionova, 2017-11-22 The global community confronts a comprehensive and interconnected array of compelling economic development and security challenges which require effective global governance At the centre of world governance stand the new plurilateral summit institutions the G8 and G20 and UN summits on subjects such as sustainable development and climate change Many observers and participants regard the performance of these summits as inadequate and doubt their ability to cope with increasingly complex and numerous global challenges This book critically examines how effectively central global institutions comply with their commitments and how their effectiveness can be improved through accountability measures designed to raise compliance and deliver better results Expert contributors assess compliance and accountability at the key global institutions to provide an important resource for policymakers and scholars in political science governance and accountability For additional information and data relating to the book please visit <http://www.g7g20utoronto.ca/accountability>

Revisiting Metaphors in International Relations Theory Michael P. Marks, 2018-01-08 This book presents an analysis of how metaphors are essential elements in the study of international relations It acknowledges the fact that theory and practice in international relations often rest on common metaphorical concepts which have implications for the ways people around the world pursue their lives Because of the increased attention metaphors have received as integral elements in political discourse there is a need to investigate metaphorical concepts that are not neutral in their implications for understanding international relations Inasmuch as government policy is shaped by metaphorical concepts that originate in the academic realm and given that scholarly works are therefore partially involved in inspiring policy the author subjects a range of metaphors in international relations theory to critical interrogation
