Short, Jennifer Devereaux**

Democracys Beginning The Athenian Story:

Democracy's Beginning Thomas N. Mitchell, 2015-10-15 A history of the world's first democracy from its beginnings in Athens circa fifth century B C to its downfall 200 years later The first democracy established in ancient Greece more than 2 500 years ago has served as the foundation for every democratic system of government instituted down the centuries In this lively history author Thomas N Mitchell tells the full and remarkable story of how a radical new political order was born out of the revolutionary movements that swept through the Greek world in the seventh and sixth centuries B C how it took firm hold and evolved over the next two hundred years and how it was eventually undone by the invading Macedonian conquerors a superior military power Mitchell's history addresses the most crucial issues surrounding this first paradigm of democratic governance including what initially inspired the political beliefs underpinning it the ways the system succeeded and failed how it enabled both an empire and a cultural revolution that transformed the world of arts and philosophy and the nature of the Achilles heel that hastened the demise of Athenian democracy A clear lively and instructive account Mitchell has mastered the latest scholarship in the field and put it to good use in interpreting the ancient sources and demonstrating its character and importance in shaping democratic thought and institutions throughout the millennia Donald Kagan author of The Peloponnesian War Mitchell's close scholarship shines in documenting the transition of Athens from financially and morally bankrupt oligarchy to emancipated democracy 2 500 years ago with a commendable attention to detail that beautifully captures the essence of ancient Greek culture and politics Roslyn Fuller Irish Times

Democracy, Federalism, the European Revolution, and Global Governance Andrea Bosco, 2020-06-10 The European Union is facing today the greatest crisis since its creation Brexit could mean not only the reversal of its steady enlargement from 6 to 28 member states but also the beginning of an inexorable decline leading to its disintegration However few today seem to recollect that it was precisely the British who were the first to promulgate the political culture which inspired the European Union's construction democracy and federalism and the first who tried to realise in June 1940 a European federation on the basis of an Anglo French union This volume traces the fundamental stages of the European unification process placing it in relation to the wider process of world economic and political integration In particular it analyses the historical significance of the European Revolution which is identified in the overcoming of the nation state namely the modern political formula which institutionalised the political division of mankind and the birth of the first truly international state The universal historical significance of the European Revolution lies in its exportability as for the other great European revolutions and therefore its potential as progressively extensible to all the states of the planet Europe was indeed the first region of the world where the barriers between national states fell and a post national political identity emerged complementary to national political identities It is in fact in the context of the European Union that democracy beyond the borders of the nation state has first been realized constituting a guiding principle for global governance

Our Ancient Faith Allen Guelzo, 2025-04-15 An

intimate study of Abraham Lincoln's powerful vision of democracy which guided him through the Civil War and is still relevant today by a best selling historian and three time winner of the Lincoln Prize Winner of the 2024 Abraham Lincoln Institute Book Prize Finalist for the 2025 Gilder Lehrman Lincoln Prize It is altogether fitting and proper that with this meditation on democracy and its most subtle defender Allen Guelzo again demonstrates that he is today's most profound interpreter of this nation's history and significance George F Will Abraham Lincoln grappled with the greatest crisis of democracy that has ever confronted the United States While many books have been written about his temperament judgment and steady hand in guiding the country through the Civil War we know less about Lincoln's penetrating ideas and beliefs about democracy which were every bit as important as his character in sustaining him through the crisis Allen C Guelzo one of America's foremost experts on Lincoln captures the president's firmly held belief that democracy was the greatest political achievement in human history He shows how Lincoln's deep commitment to the balance between majority and minority rule enabled him to stand firm against secession while also committing the Union to reconciliation rather than recrimination in the aftermath of war In bringing his subject to life as a rigorous and visionary thinker Guelzo assesses Lincoln's actions on civil liberties and his views on race and explains why his vision for the role of government would have made him a pivotal president even if there had been no Civil War Our Ancient Faith gives us a deeper understanding of this endlessly fascinating man and shows how his ideas are still sharp and relevant more than 150 years later *The Tyranny of the Majority* Tamás Nyirkos, 2018-01-29 Tamás Nyirkos provides a timely and essential reassessment of the concept of the tyranny of the majority for the study of democracy today The analysis is divided into three parts the first discusses the prehistory of majority tyranny the second reviews the elements of the standard theory in the modern era while the third deals with the current postmodern challenges to the prevailing order of liberal democracy Combining different elements of theories dating from the Middle Ages to the present Nyirkos theorizes that while the term the tyranny of the majority may be misleading the threat that tyrannical governments justify themselves by reference to the majority will remain with us for the foreseeable future He shows how some of the greatest political philosophers of the past democrats and antidemocrats alike shared the same fears about the majoritarian principle *The Tyranny of the Majority* will offer all those who read it a better understanding of what is meant not only by this term but also by related terms like democratic despotism populism or illiberal democracy It will be of interest to scholars of politics and international relations political philosophy political theology and intellectual history **The Routledge Handbook of Classics and Cognitive Theory** Peter Meineck, William Michael Short, Jennifer Devereaux, 2018-11-21 The Routledge Handbook of Classics and Cognitive Theory is an interdisciplinary volume that examines the application of cognitive theory to the study of the classical world across several interrelated areas including linguistics literary theory social practices performance artificial intelligence and archaeology With contributions from a diverse group of international scholars working in this exciting new area the volume explores the processes of the mind

drawing from research in psychology philosophy neuroscience and anthropology and interrogates the implications of these new approaches for the study of the ancient world Topics covered in this wide ranging collection include cognitive linguistics applied to Homeric and early Greek texts Roman cultural semantics linguistic embodiment in Latin literature group identities in Greek lyric cognitive dissonance in historiography kinesthetic empathy in Sappho artificial intelligence in Hesiod and Greek drama the enactivism of Roman statues and memory and art in the Roman Empire This ground breaking work is the first to organize the field allowing both scholars and students access to the methodologies bibliographies and techniques of the cognitive sciences and how they have been applied to classics

The Dying Citizen Victor Davis Hanson, 2021-10-05 The New York Times bestselling author of *The Case for Trump* explains the decline and fall of the once cherished idea of American citizenship Human history is full of the stories of peasants subjects and tribes Yet the concept of the citizen is historically rare and was among America's most valued ideals for over two centuries But without shock treatment warns historian Victor Davis Hanson American citizenship as we have known it may soon vanish In *The Dying Citizen* Hanson outlines the historical forces that led to this crisis The evisceration of the middle class over the last fifty years has made many Americans dependent on the federal government Open borders have undermined the idea of allegiance to a particular place Identity politics have eradicated our collective civic sense of self And a top heavy administrative state has endangered personal liberty along with formal efforts to weaken the Constitution As in the revolutionary years of 1848 1917 and 1968 2020 ripped away our complacency about the future But in the aftermath we as Americans can rebuild and recover what we have lost The choice is ours

Democracy Against Liberalism Aviezer Tucker, 2020-08-04 It should not surprise anyone that democracies can become dangerously illiberal indeed it was one of the classical critiques of ancient democracies Is the contemporary backlash against liberal democracy merely the same old story or are we witnessing something unprecedented In this witty and engaging book Aviezer Tucker argues that the contemporary revival of authoritarian populism combines the historically familiar with new technologies to produce a highly unstable and contagious new synthesis that threatens basic liberal norms from freedom of the press to independent judiciaries He examines how the economic crisis blocked social mobility and thereby awakened the dark dormant political passions exploited by demagogues such as Orban and Trump He argues that this slide towards neo illiberal democracy can be countered if we hard headedly restore a liberalism without nostalgia which institutes policies that can dampen down populist passions and strengthen liberal institutional barriers against them Readers interested in current affairs social science history and political and social theory will find Aviezer Tucker's original theoretical and historical analysis incisive innovative and entertaining

Philosophy, Poetry, and Power in Aristophanes's Birds Daniel Holmes, 2018-11-23 Aristophanes was clearly anxious about the role of the sophists and the new education in Athens After the perceived failure of *Clouds* in 423 and its subsequent unperformed revision Aristophanes this book argues returned in 414 with *Birds* a continuation and deepening of his critique found in *Clouds* Peisetaerus or

persuader of his comrades the protagonist of *Birds* though an old man is clearly a student of Socrates phrontisterion Unlike Socrates however he is political and ambitious and he understands the whole of human nature both rational and irrational Peisetaerus employs the various deconstructive techniques of Socrates and his allies which is summed up on the comic sage in the image of father beating to overturn not just human society but with the help of his new allies the divine and musical birds the cosmos After his new gods and bird city Cloudcuckooland are actually established however the hero re introduces the old ways justice moderation and obedience to law but now under his personal authority and thereby becomes the highest of the gods Thus the author postulates in 414 Aristophanes has come to acknowledge the potency of the apparent civic minded turn or element of the sophists while aware of the self aggrandizing nature of their ambition Peisetaerus unlike Socrates is successful he is establishing a just polis and cosmos and therefore must be victorious But the consequence or cost of this success is illustrated through the Bird Chorus After the polis is founded the birds never again sing of their musical reciprocity with the Muses the source of melodies for men The birds are now political and the policemen of human beings The sophist run cosmos has lost its music The new Zeus is an ugly bird mutant The gods and all nomoi have lost their beauty honor and reverential nature *Birds* in its finale hilariously but boldly illuminates the inherent tension between philosophy reason and poetry divinely inspired tradition

Crisis in Early Religion Mait Kõiv, Märt Läänemets, Kerstin

Droß-Krüpe, Sebastian Fink, 2022-12-02 Religion is closely linked to social development as it often serves as the ideological fundament of a society and one of the foremost expressions of its culture The articles in this volume are devoted to the study of religious crisis in Antiquity and deal with these phenomena in the Ancient Near East Rome Greece China and India

Expression in Contested Public Spaces Spoma Jovanovic, 2021-08-06 Expression in Contested Public Spaces Free

Speech and Civic Engagement addresses how people express themselves and their differences in ways that amplify the many voices central to the mission of democracy This book investigates in what ways and in what discursive forms people interrupt the status quo or unjust practices to advance positive social change The chapters feature research activity engaged scholarship and creative expression to boldly frame the issues of free speech amid attempts to chill and silence expressions of dissent in order to demonstrate how community organizers activists and scholars use their voices to advance peace and justice befitting the human condition Scholars and students of communication and the social sciences will find this book particularly interesting
