Democratic Accountability In Latin America Oxford Studies In Democratization:

Democratic Accountability in Latin America Scott Mainwaring, 2005 This volume on democratic accountability addresses one of the burning issues on the agenda of policy makers and citizens in contemporary Latin America how democratic leaders in Latin America can improve accountability while simultaneously promoting governmental effectiveness The Third Wave of Democratization in Latin America Frances Hagopian, Scott P. Mainwaring, 2005-06-06 The late twentieth century witnessed the birth of an impressive number of new democracies in Latin America This wave of democratization since 1978 has been by far the broadest and most durable in the history of Latin America but many of the resulting democratic regimes also suffer from profound deficiencies What caused democratic regimes to emerge and survive What are their main achievements and shortcomings This volume offers an ambitious and comprehensive overview of the unprecedented advances as well as the setbacks in the post 1978 wave of democratization It seeks to explain the sea change from a region dominated by authoritarian regimes to one in which openly authoritarian regimes are the rare exception and it analyzes why some countries have achieved striking gains in democratization while others have experienced erosions The book presents general theoretical arguments about what causes and sustains democracy and analyses of nine compelling country cases

Legislative Institutions and Lawmaking in Latin America Eduardo Alemán, George Tsebelis, 2016-05-27 In this volume twelve experts on Latin American politics investigate the ways in which the interaction between legislative institutions and the policy positions of key actors affects the initiation and passage of legislation covering seven Latin American Countries Argentina Brazil Chile Colombia Mexico Peru and Uruguay These seven presidential systems vary widely in terms of their legislative institutions and the position of relevant actors The introduction provides a framework to understand the interaction of legislative majorities political institutions and policy position and each chapter begins with a description of the constitutional and congressional rules that allocate powers to propose amend and veto legislation The authors then identify the political actors who have these prerogatives and apply the framework to show how their policy positions and relative strengths influence legislative decision making The findings are consistent with the basic argument of the book that presidents with extensive legislative powers may be constrained by the positions of their legislative allies whereas weaker presidents may be well positioned to build successful coalitions to achieve their legislative goals The essays in this volume demonstrate that institutional design which determines the allocation of legislative powers must be considered along with the policy preferences of key legislative actors in order to construct a full picture of law making Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of

The Politics of Local Participatory Democracy in Latin America Françoise Montambeault, 2015-10-14

Participatory democracy innovations aimed at bringing citizens back into local governance processes are now at the core of the international democratic development agenda. Municipalities around the world have adopted local participatory mechanisms of various types in the last two decades including participatory budgeting the flagship Brazilian program and participatory planning as it is the case in several Mexican municipalities. Yet institutionalized participatory mechanisms have had mixed results in practice at the municipal level. So why and how does success vary? This book sets out to answer that question. Defining democratic success as a transformation of state-society relationships, the author goes beyond the clientelism-democracy dichotomy and reveals that four types of state-society relationships can be observed in practice: clientelism, disempowering co-optation, fragmented inclusion, and democratic cooperation. Using this typology and drawing on the comparative case study of four cities in Mexico and Brazil, the book demonstrates that the level of democratic success is best explained by an approach that accounts for institutional design, structural conditions of mobilization, and the configurations of strategies, behaviors, and perceptions of both state and societal actors. Thus, institutional change alone does not guarantee democratic success; the way these institutional changes are enacted by both political and social actors is even more important as it conditions the potential for an autonomous civil society to emerge and actively engage with the local state in the social construction of an inclusive citizenship.

Federalism and Democracy in Latin America Edward L. Gibson, 2004-03-31

We live in an increasingly federalized world. This fact has generated interest in how federal institutions shape politics, policy making, and the quality of life of those living in federal systems. In this book, Edward L. Gibson brings together a group of scholars to examine the Latin American experience with federalism and to advance our theoretical understanding of politics in federal systems: questions of how and when federal institutions matter for politics, policy making, and democratic practice. They also offer conceptual approaches for studying federal systems, their origins, and their internal dynamics. The book provides case studies on the four existing federal systems in Latin America: Argentina, Brazil, Mexico, and Venezuela, and their experiences in dealing with a variety of issues including federal system formation, democratization, electoral representation, and economic reform.

The DNA of Constitutional Justice in Latin America Daniel M. Brinks, Abby Blass, 2018-04-19

In recent times, there has been a dramatic change in the nature and scope of constitutional justice systems in the global south. New or reformed constitutions have proliferated, protecting social, economic, and political rights. While constitutional courts in Latin America have traditionally been used as ways to limit power and preserve the status quo, the evidence shows that they are evolving into a functioning part of contemporary politics and a central component of a system of constitutional justice. This book lays bare the political roots of this transformation, outlining a new way to understand judicial design and the very purpose of constitutional justice. Authors Daniel M. Brinks and Abby Blass use case studies drawn from

nineteen Latin American countries over forty years to reveal the ideas behind the new systems of constitutional justice They show how constitutional designers entrust their hopes and fears to dynamic governance systems in hopes of directing the development of constitutional meaning over time

Coalitional Presidentialism in Comparative Perspective Paul Chaisty, Nic Cheeseman, Timothy J. Power, 2018-02-23 This book provides the first cross regional study of an increasingly important form of politics coalitional presidentialism Drawing on original research of minority presidents in the democratising and hybrid regimes of Armenia Benin Brazil Chile Ecuador Kenya Malawi Russia and Ukraine it seeks to understand how presidents who lack single party legislative majorities build and manage cross party support in legislative assemblies It develops a framework for analysing this phenomenon and blends data from MP surveys detailed case studies and wider legislative and political contexts to analyse systematically the tools that presidents deploy to manage their coalitions The authors focus on five key legislative cabinet partisan budget and informal exchange of favours tools that are utilised by minority presidents They contend that these constitute the toolbox for coalition management and argue that minority presidents will act with imperfect or incomplete information to deploy tools that provide the highest return of political support with the lowest expenditure of political capital In developing this analysis the book assembles a set of concepts definitions indicators analytical frameworks and propositions that establish the main parameters of coalitional presidentialism In this way Coalitional Presidentialism in Comparative Perspective provides crucial insights into this mode of governance Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

Christian Democracy in Latin America Scott Mainwaring, 2003 Christian Democracy swept across parts of Latin America gaining influence in Venezuela in the 1940s Chile in the 1950s El Salvador and Guatemala in the 1960s and Costa Rica and Mexico in the 1980s This book offers an overview of Christian Democracy in the region underscoring its remarkable diversity and examines the Christian Democratic organizations of Chile and Mexico which are still major parties today The concluding section analyzes the demise of formerly significant Christian Democratic parties in El Salvador Guatemala Peru and Venezuela Christian Democracy in Latin America provides the definitive study of the nature rise and decline of Christian Democracy in Latin America The book enriches the broader theoretical literature on political parties by highlighting the distinctive strategic dilemmas parties face and the distinctive objectives they pursue in contexts of fragile democracy or of authoritarian regimes
