Denial of the Soul Morgan Scott Peck, 1997 Through a profound exploration of one of the most explosive issues of our age euthanasia and the right to die M Scott Peck helps us determine the spiritual lessons that dying is meant to teach us As a physician psychiatrist and theologian Dr Scott Peck is uniquely suited to address the complex issues that have resulted from medicine s ability to perpetuate the mechanisms of life often without preserving life s essence **DENIAL OF THE SOUL** grapples with the deeper meanings of life and death and asks whether we have the ethical right to kill ourselves even though we have the power Through compelling stories from Dr Peck s own experiences as a physician as well as from other medical cases he guides the readers through a disturbing emotional and philosophical terrain towards greater spiritual understanding

Sociological Perspectives of Health and Illness Constantinos N. Phellas, 2010-10-12 Medical sociology has evolved from being considered as an unimportant area of enquiry to being regarded as central to the study of private troubles and public issues At present much of what is deemed in sociology as exciting is advancing or contributing to the field of health It is appropriate therefore that an edited text is published to specifically examine some of the important themes currently in medical sociology research and writing This

volume documents thinking frameworks and processes that are actively shaping the medical sociology research of today It covers a wide range of topics ranging from the morality of death and euthanasia to the conflict that exists between different status health care providers Sociological Perspectives of Health and Illness will be of interest to students across a wide range of courses in sociology and the social sciences Specifically students undertaking undergraduate and postgraduate courses in health studies and health promotion would benefit by reading this textbook However professionals will also be attracted to the book due to the dissemination of current practises in health promotion issues and practices

Everybody Wants to Go to Heaven, But Nobody Wants to Die David Crowder, Mike Hogan, 2009 In this unique and engaging book Everybody Wants to Go to Heaven but Nobody Wants to Die musicians David Crowder and Mike Hogan remind readers that a life lived to the fullest inevitably includes pain and grief Even more that kind of life requires dying to self which then frees us to experience a greater joy living as part of a community of faith

The New Age of Soul Ray S. Anderson, 2001-11-27 In The New Age of Soul the broad appeal of new age spirituality is identified and defined with special attention to the claim that the soul may be understood as both the repository of divine energy and a source of spiritual healing and hope Through dialogue with sources and perspectives on the spiritual nature of the soul the book attempts to win the respect and appreciation of the reader already persuaded by the claims and benefits of new age spirituality while at the same time convincing the reader who has suspicions and concerns about new age spirituality that a better alternative may be found The book thus has a two fold purpose first to expose the inadequacy indeed the superficiality of new age spirituality through this dialogue and discussion attracting the attention and interest of the reader already influenced by this genre Second the author makes a case for a more traditional orthodox and biblical view of the soul and human spirituality so that the reader who is inclined toward new age spirituality will rediscover the more traditional biblical content of the soul and spirituality while providing the committed more traditional Christian reader a tool by which to communicate a biblical faith with the growing segment of our population attracted toward new age spirituality In its own way this book is an apologetic for a more traditional Christian theology of human spirituality and self identity presented in a positive dialogue with new age spirituality

Spirituality and Moral Theology James Keating, 2000 A collection of essays by leading moral theologians on the topic of how being good is related to being holy in the context of pastoral life
