Christianity And Roman Society Key Themes In Ancient History:

Christianity and Roman Society Gillian Clark, 2004-12-13 Early Christianity in the context of Roman society raises important questions for historians sociologists of religion and theologians alike This work explores the differing perspectives arising from a changing social and academic culture Key issues concerning early Christianity are addressed such as how early Christian accounts of pagans Jews and heretics can be challenged and the degree to which Christian groups offered support to their members and to those in need The work examines how non Christians reacted to the spectacle of martyrdom and to Christian reverence for relics Questions are also raised about why some Christians encouraged others to abandon wealth status and gender roles for extreme ascetic lifestyles and about whether Christian preachers trained in classical culture offered moral education to all or only to the social elite The interdisciplinary and thematic approach offers the student of early Christianity a comprehensive treatment of its role and influence in Roman society

Christianity and Roman Society E. Gillian Clark, 2004 **Irenaeus, Joseph Smith, and God-Making Heresy** Adam J. Powell, 2015-10-30 Irenaeus Joseph Smith and God Making Heresy seeks both to demonstrate the salience of heresy as a tool for analyzing instances of religious conflict far beyond the borders of traditional historical theology and to illuminate the apparent affinity for deification exhibited by some persecuted religious movements To these ends the book argues for a sociologically informed redefinition of heresy as religiously motivated opposition and applies the resulting concept to the historical cases of second century Christians and nineteenth century Mormons Ultimately Irenaeus Joseph Smith and God Making Heresy is a careful application of the comparative method to two new religious movements highlighting the social processes at work in their early doctrinal developments

Being Christian in Late Antiquity Carol Harrison, Caroline Humfress, Isabella Sandwell, 2014-01-30 What do we mean when we talk about being Christian in Late Antiquity This volume brings together sixteen world leading scholars of ancient Judaism Christianity and Greco Roman culture and society to explore this question in honour of the ground breaking scholarship of Professor Gillian Clark After an introduction to the volume s dedicatee and themes by Averil Cameron the papers in Section I Being Christian through Reading Writing and Hearing analyse the roles that literary genre writing reading hearing and the literature of the past played in the formation of what it meant to be Christian The essays in Section II move on to explore how late antique Christians sought to create maintain and represent Christian communities communities that were both textually created and enacted in living realities Finally in Section III The Particularities of Being Christian the contributions examine what it was to be Christian from a number of different ways of representing oneself each of which raises questions about certain kinds of particularities for example gender location education and culture Bringing together primary source material from the early Imperial period up to the seventh century AD and covering both the Eastern and Western Empires the papers in this volume demonstrate that what it meant to be Christian cannot simply be taken for granted Being Christian was part of a continual process of construction and negotiation

as individuals and Christian communities alike sought to relate themselves to existing traditions social structures and identities at the same time as questioning and critiquing the past s in their present

Clement of Alexandria Piotr Ashwin-Siejkowski,2008-06-10 An examination of the patristic idea of perfection in relation to Clement s project on the ethical intellectual and spiritual development of a Christian

Alexander the Great in the Roman Empire, 150 BC to AD 600 Jaakkojuhani Peltonen,2019-03-13 The life of Alexander the Great began to be retold from the moment of his death The Greco Roman authors used these stories as exemplars in a variety of ways This book is concerned with the various stories of Alexander and how they were used in antiquity to promote certain policies religious views and value systems The book is an original contribution to the study of the history and reception of Alexander analysing the writings of over 70 classical and post classical authors during a period of over 700 years Drawing on this extensive range and quantity of material the study plots the continuity and change of ideas from the early Roman Empire to the early Middle Ages

The Apostles' Creed Piotr Ashwin-Siejkowski,2009-05-01 The Apostles Creed is an expression of Christian theology that was formed in a period of fascinating and creative debate The creed is not simply a dogmatic static and cryptic symbol of Christian faith but on the contrary a lively narrative that can still inspire imagination critical reflection and faith In The Apostle s Creed the ancient debates that led to the formulation of its twelve pronouncements are examined The richness of early Christian thought is explored by looking at the ideas behind each creedal pronouncement and tracing the theological debates that inspired each statement Early Christian theology is not treated as unanimous but as pluralistic The polyphony of theological opinion which characterized the Christianity of this period is therefore highlighted and celebrated In explaining the context that gave birth to the creed this study refers to the testimony of various witnesses of those theological arguments This includes opponents of the apostolic and church Fathers the Gnostics heretics and Jewish and pagan critics of Christian faith

The Myth of Paganism Robert Shorrock,2013-10-16 Traditional and still prevalent accounts of late antique literature draw a clear distinction between pagan and Christian forms of poetry whereas Christian poetry is taken seriously in terms its contribution to culture and society at large so called pagan or secular poetry is largely ignored as though it has no meaningful part to play within the late antique world The Myth of Paganism sets out to deconstruct this view of two contrasting poetic traditions and proposes in its place a new integrated model for the understanding of late antique poetry As the book argues the poet of Christ and the poet of the Muses were drawn together into an active often provocative dialogue about the relationship between Christianity and the Classical tradition and ultimately about the meaning of late antiquity itself An analysis of the poetry of Nonnus of Panopolis author of both a pagan epic about Dionysus and a Christian translation of St John s Gospel helps to illustrate this complex dialectic between pagan and Christian voices

The Apology of Justin Martyr David E. Nyström,2018-05-03 In his Apology Justin Martyr uses some major apologetic strategies to defend Christianity These are the logos doctrine the theft theory the proof from prophecy and the arguments from demons David E Nystr m analyses them in

order to create a picture of how they work together rhetorically and literarily in Justin's grand argument *Science Writing in Greco-Roman Antiquity* Liba Taub, 2017-04-13 This book explores how science and mathematics were communicated in antiquity in a wide variety of texts including poetry letters and biographies
