Crepuscular Dawn Semiotexte Or Foreign Agents:

Crepuscular Dawn Paul Virilio, Sylvere Lotringer, 2002-11-08 The genetic bomb marks a turn in the history of humanity The accident is a new form of warfare It is replacing revolution and war Sarajevo triggered the First World War New York is what Sarajevo was September 11th opened Pandora's box The first war of globalization will be the global accident the total accident including the accident of science And it is on the way In 1968 Virilio abandoned his work in oblique architecture believing that time had replaced space as the most important point of reflection because of the dominance of speed We were basically on the verge of converting space time into space speed Speed facilitates the decoding of the human genome and the possibility of another humanity a humanity which is no longer extra territorial but extra human *Crepuscular Dawn* expands Virilio's vision of the implosion of physical time and space onto the micro level of bioengineering and biotechnology In this cat and mouse dialogue between Sylvere Lotringer and Paul Virilio Lotringer pushes Virilio to uncover the historical foundations of his biotech theories Citing various medical experiments conducted during World War II Lotringer asks whether biotechnology isn't the heir to eugenics and the science for racial improvement that the Nazis enthusiastically embraced Will the endocolonization of the body come to replace the colonization of one's own population by the military Both biographical and thematic the book explores the development of Virilio's investigation of space architecture urbanism and time speed and simultaneity that would ultimately lay the foundation for his theories on biotechnology and his startling declaration that after the colonization of space begins the colonization of the body Architecture, Media, Archives Ana Bonet Miró, 2024-08-22 Over 60 years on from its inception the celebrated Fun Palace civic project developed in the 1960s by the radical theatre director Joan Littlewood and the architect Cedric Price continues to capture the architectural imagination Despite the building itself never being realized much of the previous analysis of the Fun Palace has been devoted to Price and his drawings The critical role that Littlewood played however remains largely unrecognized by architectural scholarship and a whole area of the project's cultural agenda remains overlooked *Architecture Media Archives* is the first serious study of the complex relations between Littlewood and Price reframing the Fun Palace as an extended media project and positioning Littlewood more clearly as co-designer Drawing on extensive archival material the book considers how due to a lack of institutional support the aims of the Fun Palace to transform the passive mass audiences of post war consumer society into active citizens through forms of self directed pleasure led and open exchange were realized through different sites of information throughout the 1960s From broadsheets pamphlets and journals to films and press news the book addresses the conditions of production circulation storage and reception of these sites and reveals how they not only recorded the transformation of the project but also fundamentally enhanced and informed its meaning in specific ways The book also raises important questions about the agency of the Fun Palace archive in shaping the reception of the project in the decades since its inception presenting its analysis through a novel Fun Palace Reception Index and Chart fundamentally altering our

view of the project itself and transforming the way in which we understand the technological and cultural production of the 1960s Camino Kim Demuth, Kyle Weise, 2010-09-09 Catalogue accompanying an exhibition by Kim Demuth at Beam Contemporary art gallery Melbourne Australia Military Reading and Modern American Narrative Stephen D. Carter, 2011

Forget Foucault & Forget Baudrillard Jean Baudrillard, 1987 **Bodycheck** Luk van den Dries, 2002 In ice hockey the term body check refers to a specific move to gain control It is a blow from body to body a dynamic clash of physical strength which will determine the course of the game In this book too the body is checked and there is physical confrontation Not in the hockey ring but on stage This book deals with the body in contemporary performing arts The focus is on exploring theoretical avenues and developing new concepts to grasp corporeal images more accurately This theoretical research is confronted with the voice of artists whose work explicitly deals with the body In depth interviews with a.o. Meg Stuart Wim Vandekeybus Romeo Castellucci Jer me Bel reveal a very broad range of views on the representation of the body in today's performing arts The combination of these two voices the theoreticians and the artists shows that research by artists and cultural scientists is perfectly complementary *Julkisen tilan poetiikkaa ja politiikkaa*, **Revolt, She Said** Julia Kristeva, Philippe Petit, 2002-05-03 Julia Kristeva extends the definition of revolt beyond politics per se May 68 in France expressed a fundamental version of freedom not freedom to succeed but freedom to revolt Political revolutions ultimately betray revolt because they cease to question themselves Revolt as I understand it psychic revolt analytic revolt artistic revolt refers to a permanent state of questioning of transformations an endless probing of appearances In this book Julia Kristeva extends the definition of revolt beyond politics per se Kristeva sees revolt as a state of permanent questioning and transformation of change that characterizes psychic life and in the best cases art For her revolt is not simply about rejection and destruction it is a necessary process of renewal and regeneration Agenda pendiente Fernando Diez, 2021-05-19 Hemos consumido los 10 primeros años del S XXI sin avances sustanciales en los problemas fundamentales que plantea la globalización y un medio ambiente necesariamente compartido Las notas que Fernando Diez publicó en la página de Opinión del diario La Nación entre los años 2001 y 2011 ahora reunidas en este libro mantienen la actualidad de temas que a pesar de su urgencia no han comenzado a resolverse en algunos casos ni siquiera a discutirse Medio ambiente y sociedad aparecen unidos en las decisiones que pronto deberán afrontarse tanto en la escala doméstica como en la del conjunto de las naciones Con una prosa gil y un enfoque directo este libro sirve como agenda de trabajo para la discusión de las políticas públicas que deberán dar forma a decisiones relativas a la ciudad el medio ambiente los residuos el transporte la economía la inmigración la educación y en definitiva a nuestro modo de vida Leonardo, 2004 International journal of contemporary visual artists
