*Globalization or Regionalization of the American and Asian Car Industry?* M. Freyssenet, K. Shimizu, G. Volpato, 2003-04-15 The automobile sector is one of the most archetypal global industries and is seen by many as one of the main drivers behind the homogenisation of world markets due to firms internationalization strategies and the social practices that firms impose This book argues that this is not entirely the

case due to the heterogeneity of firms and the diversity of strategies pursued. It highlights the diversity and forms of internationalization and the preference for regionalization rather than globalization that has occurred over the past decade. This book looks specifically at the American and Asian car industry. *Securities and Exchange Commission Litigation Complaint: September 25, 2008*, **Hardball** George Stalk, Rob Lachenauer, 2004-10-12. Great companies stumble and fall when they lose it. Highfliers crash when a competitor notices they don't have it. Start-ups shut down if they can't develop it. It is a strategy so powerful and an execution-driven mindset so relentless that companies use it to gain more than just competitive advantage; they achieve an industry dominance that is virtually unassailable and that competitors often try to explain away as unfair. In their hardball manifesto, authors George Stalk and Rob Lachenauer of the leading strategy consulting firm The Boston Consulting Group show how hardball competitors can build or maintain an enviable competitive edge by pursuing one or more of the classic hardball strategies: unleash massive and overwhelming force, exploit anomalies, devastate profit sanctuaries, raise competitors' costs, and break compromises. Based on 25 years of experience advising and observing a range of companies, the authors argue that hardball competitors can gain extreme competitive advantage, neutralizing, marginalizing, or even destroying competitors without violating their contracts with customers or employees and without breaking the rules. A clear-eyed paean to the timeless strategies that have driven the world's winning companies, *Hardball* Strategy redefines and reinterprets the meaning of competition for a new generation of business players. George Stalk and Rob Lachenauer are directors of The Boston Consulting Group. Stalk is the author of *Competing Against Time*, the classic work on time-based competition. **Horse Trading in the Age of Cars** Steven M. Gelber, 2008-10. Gelber's highly readable and lively prose makes clear how this unique economic ritual survived into the industrial twentieth century in the process, adding a colorful and interesting chapter to the history of the automobile. **The New Market Leaders** Fred Wiersema, 2012-12-11. Ask any manager to identify what's different in the new economy and they will tell you that markets are more crowded than ever before. As a result, it is harder than ever to attract and retain customer attention. Increasingly, fresh role models are needed to determine what it takes to prosper when customers are the most precious resource. *THE NEW MARKET LEADERS* provides exactly that by examining the exciting, unorthodox companies dominating the market and revolutionising business. In this eye-opening and cutting-edge book, renowned business strategist Fred Wiersema offers totally new guidelines for measuring a company's success. He explains why traditional measures such as size of the company or total sales are no longer adequate markers of a company's prowess or future prospects. By providing new sales growth and market value indexes, Wiersema shows readers how to recognise the movers and shakers in the industry, whether internet-based or more traditional. He identifies today's 100 most influential global businesses and explains what makes them so powerful. In today's fast-paced economy, no investor or manager can afford to ignore the practical strategies and highly applicable insights offered in this important book.
