Sarreal,2023-01-24 Like coffee or tea yerba mate is one of the world s most beloved caffeinated beverages Once dubbed a devil s drink by Spanish missionaries in South America only to be later hailed by capitalists and politicians as green gold it has a long and storied history And no country consumes and celebrates yerba mate quite like Argentina Yerba Mate is the first book to explore the extraordinary history of this iconic beverage in Argentina from the precolonial period to the present From yerba mate s Indigenous origins to its ubiquity during the colonial era from its association with rural people and the poor in the late nineteenth century to its resurgence in the last years of the twentieth century Julia Sarreal meticulously documents yerba mate s consumption production and cultural importance over time Yerba Mate is the definitive history of this popular beverage and social practice and it tells a fascinating story about race culture and how a drink helped forge the national identity of one of the world s most dynamic countries A Field on Fire Mark D. Hersey,Ted Steinberg,2019-01-29 A frank and engaging exploration of the burgeoning academic field of environmental history Inspired by the pioneering work of preeminent environmental historian Donald Worster the

contributors to *A Field on Fire: The Future of Environmental History* reflect on the past and future of this discipline. Featuring wide-ranging essays by leading environmental historians from the United States, Europe, and China, the collection challenges scholars to rethink some of their orthodoxies, inviting them to approach familiar stories from new angles, to integrate new methodologies, and to think creatively about the questions this field is well-positioned to answer. Worster's groundbreaking research serves as the organizational framework for the collection. Editors Mark D. Hersey and Ted Steinberg have arranged the book into three sections corresponding to the primary concerns of Worster's influential scholarship: the problem of natural limits, the transnational nature of environmental issues, and the question of method. Under the heading *Facing Limits*, five essays explore the inherent tensions between democracy, technology, capitalism, and the environment. The *Crossing Borders* section underscores the ways in which environmental history moves easily across national and disciplinary boundaries. Finally, *Doing Environmental History* invokes Worster's work as an essayist by offering self-conscious reflections about the practice and purpose of environmental history. The essays aim to provoke a discussion on the future of the field, pointing to untapped and underdeveloped avenues ripe for further exploration. A forward thinker like Worster presents bold challenges to a new generation of environmental historians on everything from capitalism and the Anthropocene to war and wilderness. This engaging volume includes a very special afterword by one of Worster's oldest friends, the eminent intellectual historian Daniel Rodgers, who has known Worster for close to fifty years.

Pervasive Powers Sara Angeli Aguiton, Marc-Olivier Déplaudé, Nathalie Jas, Emmanuel Henry, Valentin Thomas, 2021-09-23. In an era of systemic crisis and of global critiques of the unsustainable perpetuation of capitalism, *Pervasive Powers: The Politics of Corporate Authority* critically questions the conditions for the maintenance and expansion of corporate power. The book explores empirical case studies in the realms of finance, urban policies, automobile safety, environmental risk, agriculture, and food in western democracies. It renews understanding of the power of big business, focusing on how the study of temporalities of multi-sited influence and of sociotechnical tools is crucial to an analysis of the evolution of corporate authority. Drawing on different literatures ranging from research on business associations and global governance to that on the social production of ignorance or on corporate crime, this book aims at contributing to existing works on the capacity of corporations to rule the world. Unlike approaches focused on economic elites and on the political activities of firms, it goes beyond analysis of the power of corporations to influence policy-making to depict their unprecedented capacity to transform and shape the social world. Operating in numerous social spaces and mobilizing a wide range of strategies, corporate organizations have acquired the pervasive power to act far beyond mere spaces of regulation and government. Based on contributions from historians, science and technology studies scholars, sociologists, and political scientists, this book will be of great interest to researchers, academics, and students who wish to understand how corporations exert a pervasive influence on public policies and to NGOs and regulatory agencies.
