Learn Digital Photography - Traditional and Underwater Shai S Bitton, 2012-01-08 Digital Photography. Although in some places you'll encounter film, that's the past. Digital has taken over. Technology has enlarged the capabilities in photography tasks. By opening the gates to edit, print, what you want, share, enhance, or anywhere anytime. Traditional Photography is limited to above sea. Underwater is limited to below sea. Traditional offers a vast area to explore in contrast to underwater. Although both types of photography are fascinating, to justify between them is very hard. Traditional and Underwater Type of photography: Landscape, Nature, Marine life, Underwater, Ships, Yachts, Birds, Reptiles, Mammals, Animals, people, places, things, furniture, objects, Architecture, Buildings, Cars, Fashion, Merchandise, Houses, Property, Land, Jewellery, Marketing, Publications, Advertisement, Sales. This list is expandable to 1000's of categories and subcategories. Incorporated in one eBook covering traditional and underwater photography. The casual or hobby photographer. For those that own a camera and are using to take photos of vacations and the family places they've been to, things they saw. On a daily basis or on occasion while on vacation or special happening. The Novice photographer. Is one that has starting to get into photography. Now is found in the midst of defining which direction to pursue. As this can be a very difficult choice to choose. Photography has thousands of areas to select. With such an array of options, selecting them is a challenge. Needless to say, some have their passion set on at instant. As I have chosen to follow in the direction of the Underwater Photography. The way I chose this option is because as a professional in the scuba diving field. The choice was defined in simplicity. If you're a diver, the choice may be set halfway already. The Amateur photographer. At this stage, the majorities are exploring their options. They have invested in semi professional or even professional camera.
