López, 2000 This new three volume encyclopedia features over 4,000 entries on more than 40 regions in Latin America and the Caribbean from 1920 to the present day. **Concise Encyclopedia of Latin American Literature** Verity Smith, 2014-01-14 The Concise Encyclopedia includes all entries on topics and countries cited by many reviewers as being among the best entries in the book. Entries on the 50 leading writers in Latin America from colonial times to the present and detailed articles on some 50 important works in this literature those who read and studied in the English speaking world. **Gender and the Self in Latin American Literature** Emma Staniland, 2015-10-05 This book explores six texts from across Spanish America in which the coming of age story Bildungsroman offers a critique of gendered selfhood as experienced in the region's socio-cultural contexts. Looking at a range of novels from the late twentieth century, Staniland explores thematic concerns in terms of their role in elucidating a literary journey towards agency that is towards the articulation of a socially and personally viable female gendered identity mindful of both the hegemonic discourses that constrain it and the possibility of their deconstruction and reconfiguration. Myth, exile and the female body are the three central themes for understanding the personal, social and political aims of the Post Boom women writers whose work is explored in this volume. Isabel Allende, Laura Esquivel, Angeles Mastretta, Sylvia Molloy, Cristina Peri Rossi and Zo Vald's Their adoption and adaptation of an originally eighteenth century and European literary genre is seen here to reshape the global canon as much as it works to reshape our understanding of gendered identities as socially constructed, culturally contingent and open ended. **Take My Word** Anne E. Goldman, 2023-09-01 In an innovative critique of traditional approaches to autobiography, Anne E. Goldman convincingly demonstrates that ethnic women can and do speak for themselves even in the most unlikely contexts. Citing a wide variety of nontraditional texts including the cookbooks of *Nuevo Mexicanas*, African American memoirs of midwifery and healing, and Jewish women's histories of the garment industry, Goldman illustrates how American women have asserted their ethnic identities and made their voices heard over and sometimes against the interests of publishers, editors, and readers. While the dominant culture has interpreted works of ethnic literature as representative of a people rather than an individual, the working women of this study insist upon their own agency in narrating rich and complicated self-portraits. In an innovative critique of traditional approaches to autobiography, Anne E. Goldman convincingly demonstrates that ethnic women can and do speak for themselves even in the most unlikely contexts. Citing a wide variety of nontraditional texts including
