Competence In The Law From Legal Theory To Clinical Application:

Competence in the Law Michael L. Perlin, Pamela R. Champine, Henry A. Dlugacz, Mary Connell, 2008-07-10 The best source for a comprehensive overview of mental competency in criminal mental disability and civil law Competence in the Law prepares mental health professionals to assess questions of both civil and criminal competence and to counsel lawyers and judges in cases in which these issues are germane A landmark contribution to forensic practice this book equips you to expertly address critical issues faced in conducting assessments within the legal system Assessing Trauma in Forensic Contexts Rafael Art. Javier, Elizabeth A. Owen, Jemour A. Maddux, 2020-02-29 This book examines the different ways that trauma is involved in the lives of those who interact with the justice system and how trauma can be exacerbated in legal settings It includes both victims and perpetrators in providing a perspective on trauma in general and a framework that will guide those who evaluate and treat individuals in forensic settings Comprehensive in scope it covers key areas such as developmental issues emotions linguistic and communication difficulties and special populations such as veterans immigrants abused women incarcerated individuals and children The main objective of this book is to bring trauma to the fore in conducting forensic evaluations in order to understand these cases in greater depth and to provide appropriate interventions for a range of problems This masterful book edited by Rafael Art Javier Elizabeth Owen and Jemour A Maddux is a refreshing original and thoughtful response to these needs demonstrating beyond any doubt why lawyers and forensic mental health professionals must be trauma informed in all of their relevant work Michael L Perlin Esq New York Law School Handbook of Forensic Assessment Eric Y. Drogin, Frank M. Dattilio, Robert L. Sadoff, Thomas G. Gutheil, 2011-06-24 The first handbook to explore forensic assessment from psychiatric and psychological perspectives The editors have assembled a magnificent collaboration between psychiatrists and psychologists to bring forth critical knowledge and insight to the core competency of forensic assessment This handbook is essential reading and a comprehensive resource for both newly minted and seasoned forensic practitioners Robert I Simon MD Director Program in Psychiatry and Law Georgetown University School of Medicine This long awaited resource blows the dust off traditional standards shakes the cobwebs out of our old ways of thinking and shows the practical steps in producing work that will make sense to juries and withstand the most skillful cross examination There is no better resource Kenneth S Pope PhD ABPP Diplomate in Clinical Psychology coauthor Ethics in Psychotherapy and Counseling Fourth Edition From preparation to collection to interpretation to communication of the results this excellent comprehensive treasure shows how to conduct forensic assessments Each splendid evidence based chapter is presented from the collaboration between psychologists and psychiatrists It is a must have resource for forensic experts as well as general practitioners or anyone wishing to understand standard of care in forensic assessment Melba Vasquez PhD ABPP 2011 American Psychological Association President The practitioner oriented coverage in the Handbook of Forensic Assessment examines The current state of psychology and psychiatry including requisite clinical competencies ethical guidelines and

considerations of multidisciplinary collaboration Various approaches to assessments in criminal and civil matters The principles of effective preparation data collection and interpretation as well as communication for each special situation Topics including competence to stand trial sexual offender evaluations addictions child abuse and education Overarching practice issues such as practice development retention compensation consultation and forensic treatment Includes sample reports that demonstrate the integrative potential of both psychology and psychiatry Incorporating a wealth of current and multidisciplinary research the Handbook of Forensic Assessment is destined to become every mental health professional s most valuable one stop reference for their forensic work Mental Disability and the Death Penalty Michael L.

Perlin,2013-01-17 There is no question that the death penalty is disproportionately imposed in cases involving defendants with mental disabilities There is clear systemic bias at all stages of the prosecution and the sentencing process in determining who is competent to be executed in the assessment of mitigation evidence in the ways that counsel is assigned in the ways that jury determinations are often contaminated by stereotyped preconceptions of persons with mental disabilities in the ways that cynical expert testimony reflects a propensity on the part of some experts to purposely distort their testimony in order to achieve desired ends These questions are shockingly ignored at all levels of the criminal justice system and by society in general Here Michael Perlin explores the relationship between mental disabilities and the death penalty and explains why and how this state of affairs has come to be to explore why it is necessary to identify the factors that have contributed to this scandalous and shameful policy morass to highlight the series of policy choices that need immediate remediation and to offer some suggestions that might meaningfully ameliorate the situation Using real cases to illustrate the ways in which the persons with mental disabilities are unable to receive fair treatment during death penalty trials he demonstrates the depth of the problem and the way it s been institutionalized so as to be an accepted part of our system He calls for a new approach and greater attention to the issues that have gone overlooked for so long **Introduction to**

Assessment and the Law Kelly Purser, 2017-05-22 This book discusses theoretical issues standards and professional considerations arising when legal and health practitioners undertake legal capacity assessments in the context of wills enduring powers of attorney and advance health directives The potential loss of cognition can erode autonomy as individuals lose the ability to make their own legally recognised decisions This is an inescapable problem with significant legal social health and policy repercussions This work synthesises and critically analyses the existing literature including some of the best assessment models and guiding principles internationally to generate a new methodology and understanding of what capacity assessment best practice means This includes the impact of assessments on individual autonomy the ideal method building upon respect for both autonomy as well as fundamental human rights The triggers to assess capacity who to involve in the assessment process as well as how to conduct that assessment process are discussed The crucial relationship between the legal and health professionals involved in assessments including growing concerns around practitioner liability is also explored This analysis is undertaken through the innovative use of a therapeutic jurisprudence lens the effect of which is to contribute new knowledge to this complex field

Legal Knowledge and Information Systems Enrico Francesconi, Giovanni Sartor, Daniela Tiscornia, 2008 From its very beginning legal informatics was mostly limited to the study of legal databases but very early on the Institute of Legal Information Theory and Techniques ITTIG started being involved with the specific topic of the Jurix conference namely knowledge based systems This book includes programmatic papers with precise accounts of applications and prototypes In many domains the focus has changed For instance research in retrieval has moved from classical Boolean systems into the management of documents in the Web It addresses in particular standards and methods for embedding machine readable information into such documents and search methods that deal with heterogeneous information Similarly with regard to legal concepts the focus has moved from thesauri to ontologies or to techniques for the automatic extraction of concepts from natural language texts In the domain of legal reasoning merely deductive inferences have been expanded with models of legal argumentation dialogue and mediation The conference Logica informatica e diritto 1981 and Jurix 2008 share the connection between theoretical models and the development of applications and prototypes However while in 1981 one could mostly see a juxtaposition of papers in legal theory and papers in computer applications in 2008 we can see how discussions of issues in legal theory are embedded within contributions to legal informatics This shows how research in legal informatics is increasingly becoming an autonomous domain of scientific inquiry by creatively incorporating and developing knowledge and methods from the two disciplines from which it originates legal theory and computer science while preserving links with them

Sexuality, Disability, and the Law M. Perlin, A. Lynch, 2016-04-08 Sexuality Disability and the Law approaches issues of sexual autonomy and disability from multiple perspectives including constitutional law international human rights therapeutic jurisprudence history cognitive psychology dignity studies and theories and findings on gender constructs and societal norms Perlin and Lynch determine that if our

society continues to assert that persons with mental disabilities possess a primitive morality we allow ourselves to censor their feelings and their actions By denying their ability and desires to show love and affection we justify this disparate treatment Our reliance on stereotypes has warped our attitudes and our policies and has allowed us to avoid important issues of humanity and of dignity that should be at the basis of any policies that affect this population

A Handbook of Geriatric Neuropsychology Shane S. Bush, Brian P. Yochim, 2022-07-12 *A Handbook of Geriatric Neuropsychology Practice Essentials* Second Edition brings together experts in the field to integrate the knowledge and skills needed to understand and treat older adults who are experiencing problems with memory and other thinking skills With three new sections including coverage of other conditions beyond neuropsychological disorders special assessment contexts and more on interventions and ethics as well as multiple new chapters and significant updates from the first edition this book provides a strong foundation for clinicians educators and researchers invested in the wellbeing of older adults The impact and experience of aging like the practice of neuropsychology evolves over time Similarly through advances in science and professional techniques neuropsychological practice has continued to evolve Neuropsychological evaluation remains the most effective method of diagnosing age related cognitive decline cognitive difficulties that result from psychological factors and other related disorders as well as determining how the various disorders impact functioning and quality of life This book explores these areas and offers state of the art assessment techniques to assess changes in cognition and behavior and to distinguish normal changes from neuropathology This book is a go to resource and key reference for psychologists who serve older adults with known or suspected cognitive problems as well as those who are invested in promoting brain wellness It provides much of the information needed to establish and improve foundational and functional competencies in geriatric neuropsychology and establish practices that are personally and professionally rewarding all aimed at promoting the understanding and wellbeing of older adults
