Re-enchanting the World Silvia Federici, 2018-11-01 Silvia Federici is one of the most important contemporary theorists of capitalism and feminist movements In this collection of her work spanning over twenty years she provides a detailed history and critique of the politics of the commons from a feminist perspective In her clear and combative voice Federici provides readers with an analysis of some of the key issues and debates in contemporary thinking on this subject Drawing on rich historical research she maps the connections between the previous forms of enclosure that occurred with the birth of capitalism and the destruction of the commons and the new enclosures at the heart of the present phase of global capitalist accumulation Considering the commons from a feminist perspective this collection centers on women and reproductive work as crucial to both our economic survival and the construction of a world free from the hierarchies and divisions capital has planted in the body of the world proletariat Federici is clear that the commons should not be understood as happy islands in a sea of exploitative relations but rather autonomous spaces from which to challenge the existing capitalist organization of life and labor

Visible Dissent Teresa V. Longo, 2018-05-15 As Teresa Longo's groundbreaking examination reveals North America's dissident literature has its roots in the Latin American literary tradition From Pablo Neruda's *Canto General* to Eduardo Galeano's *Open Veins of Latin America* to Gabriel Garc'a M'quez's *One*

Hundred Years of Solitude among others contemporary writers throughout the Americas have forced us to reconsider the United States's relationship with Latin America and more broadly with the Global South Highlighting the importance of reading and re-reading the Latin American canon in the United States Longo finds that literature can be an instrument of progressive social change and argues that small literary presses City Lights Curbstone and Seven Stories have made that dissent visible in the United States In the book's final two chapters on the Robert F Kennedy Center's Speak Truth to Power initiative and the publication of Marc Falkoff's Poems from Guantánamo the author turns our attention further outward probing the role poetry theater and photography play in global human rights work Locating the work of artists and writers alongside that of scholars and legal advocates Visible Dissent not only unveils the staying power of committed writing it honors the cross currents and the on the ground implications of humane political engagement

Insurgent Universality Massimiliano Tomba, 2019 Scholars commonly take the Declaration of the Rights of Man and Citizen of 1789 written during the French Revolution as the starting point for the modern conception of human rights According to the Declaration the rights of man are held to be universal at all times and all places But as recent crises around migrants and refugees have made obvious this idea sacred as it might be among human rights advocates is exhausted This book suggests that we need to think of a different idea of universality that exceeds the juridical universalism of the Declaration *Insurgent Universality* investigates alternative trajectories of modernity that have been repressed hindered and forgotten Investigating radical upheavals Tomba excavates an alternative idea of universality that is based on popular

political practices that disrupt and reject the existing political and economic order The book shows how this tradition builds bridges between European and non European political and social experiments **Twelve Feminist Lessons of War**

Fitzwater,2019-02-01 Following the Zapatista uprising on New Year s Day 1994 the EZLN communities of Chiapas began the slow process of creating a system of autonomous government that would bring their call for freedom justice and democracy from word to reality Autonomy Is in Our Hearts analyzes this long and arduous process on its own terms using the conceptual language of Tsotsil a Mayan language indigenous to the highland Zapatista communities of Chiapas The words Freedom Justice and Democracy emblazoned on the Zapatista flags are only approximations of the aspirations articulated in the six indigenous languages spoken by the Zapatista communities They are rough translations of concepts such as ichbail ta muk or mutual recognition and respect among equal persons or peoples a mtel or collective work done for the good of a community and lekil kuxlejal or the life that is good for everyone Autonomy Is in Our Hearts provides a fresh perspective on the Zapatistas and a deep engagement with the daily realities of Zapatista autonomous government Simultaneously an exposition of Tsotsil philosophy and a detailed account of Zapatista governance structures this book is an indispensable commentary on the Zapatista movement of today *Sustainable Food Futures* Jessica Duncan,Megan Bailey,2017-08-04
