Companies On A Mission Entrepreneurial Strategies For Growing Sustainably Responsibly And Profitably:

Companies on a Mission Michael V. Russo, 2010-04-06 Let your social and environmental conscience be your guide can be a successful and durable strategy for a firm This is the first book to explain how following a vision for the earth and for society can be a powerful route to profits for small and medium sized companies Companies on a Mission explains that mission driven companies appreciate and leverage traditional strategic principles with a twist to win in the marketplace By clearly and pragmatically laying out this argument author Michael V Russo crystallizes for enlightened businesses what Michael Porter made clear for mainstream firms years ago The book shows that a mission driven approach creates significant barriers to imitation by larger established rivals Mission driven firms build their brands on authenticity Only you are you And authenticity builds customer loyalty Later in the book Russo moves beyond the firm level to look at these companies in context He finds for instance that just as specific industries often develop in geographic clusters mission driven companies also aggregate But they put down roots where other businesses are pursuing complementary goals Portland and the Bay Area are two such hotbeds This allows for cooperation as opposed to breeding stiff competition The rise to prominence of mission driven companies like Patagonia Seventh Generation Kettle Foods and Calvert Group is undoubtedly the result of powerful trends in consumer markets including the rise of conscious consumerism the transparency movement and fallout from global competition Most books that address social and environmental issues are focused on large corporations crafted as autobiographies by CEOs or written as moral calls to action without regard for the bottom line Companies on a Mission both chronicles a movement and provides grounded guidance to entrepreneurs and managers who wish to join the wave For these readers this book is a one of a kind bible Making Sustainability Work Marc J.
