

CSI Master Format

The Construction Specifications Institute (CSI) is the founding institution for organizing and coding specifications related to construction projects. The CSI Master Format is the guiding numbering system to create consistency and organization across the industry. The first CSI Format for Construction Specifications was published in 1963; it contained 16 major divisions of work. The 16-Division specification was the standard used by building professionals from its release in 1975 until it was retired in 2004. In 2004, MasterFormat increased to 50 Divisions to account for new types of products and a wider range of available options in building materials.

The last publication to include 16 divisions was published in the 1995 MasterFormat edition. It included the following divisions:

- Division 01 - General Requirements
- Division 02 - Site Construction
- Division 03 - Concrete
- Division 04 - Masonry
