ASB Summer University 2006: Assessment of student satisfaction with a threefold approach Oliver Mühlich, 2007-05-30

Inhaltsangabe Abstract The aim of the research presented here is to assess student satisfaction at the Aarhus School of Business ASB for the Summer University that was first introduced in July 2006 The European Performance Satisfaction Index EPSI was adapted to incorporate student satisfaction in order to reach this aim and was used as the main approach in our thesis The necessary data was gathered from online surveys we derived from the students Two studies complemented this model On the one hand structured interviews were conducted with all relevant lecturers and on the other hand a survey was conducted in two waves with Summer University participants In the first wave the students' initial expectations were measured and in the second wave it was the degree of fulfilment for these expectations that were measured Results from the EPSI model indicated that participants of the Summer University were satisfied overall with the program and will remain loyal Surprisingly however the variable image showed no direct impact on perceived value satisfaction and loyalty The results from the interviews showed that lecturers were well chosen but not adequately prepared for the program In addition the survey results indicated that expectations were to some degree fulfilled but certain attributes of lecture quality experienced a negative disconfirmation of expectations Furthermore the direct comparison of data from the lecturers and the students suggested problems with the information flow between ASB the lecturers and the students From these findings it can be concluded that overall the Summer University was a success in the introduction of a new study program however there are some areas that need to be improved Thus our suggestions include new positioning and better marketing for next year concrete improvement of quality attributes and information flow and a strategy for sustainability and expansion of the Summer University Our work successfully presents student satisfaction with a threefold approach not used hitherto Combining all three approaches in one dissertation and establishing linkages and interrelations between them provides an

extensive insight towards student satisfaction Considering ASB Summer University took place for the first time in 2006 the insights we provide and the recommendations we are able to give will influence the further organisational and managerial development of the program When

The Ultimate Guide to Summer Opportunities for Teens Sandra L. Berger,2007-10 Presents advice on using summer opportunities to help gain entrance into selective universities and provides guidance on researching choosing and applying for summer programs

Program Evaluation of the Latinas Learning to Lead Summer Youth Institute Belinda M. Gonzalez-Leon,2015-09-28 This dissertation was a summative program evaluation with qualitative inquiry of the Latinas Learning to Lead Summer Youth Institute This week long leadership development program is exclusive to college age Hispanic women To determine if the mission and its objectives were attained program graduates completed a survey and were then invited to participate in an in depth interview Data gathered found that the program mission and objectives were met Various themes of significance included a need for role models and mentors increased confidence and motivation sense of cultural belonging and realization of self truths Further research should include a longitudinal study as well as research on those Hispanic young women who were not able to participate in this program

The Chosen People ,1923
