Autobiography Rudolf Steiner, 2006-05 4 lectures Dornach June 28 July 18 1923 CW 350 Truth and striving for truth must taste good to you and lies once you are conscious of them must taste bitter and poisonous You must not only know that human judgments have color but also that printer's ink nowadays is mostly deadly nightshade juice You must be able to experience this in all honesty and rectitude and once you can do so you will be in a state of spiritual transformation Rudolf Steiner What is the relationship between coming to see the secrets of the universe and one's own view of the world How far must one go before finding the higher worlds on the path of natural science Do cosmic forces influence all of humanity What connection do plants have with the human being and the human body In answering these questions Steiner covers a wide range of topics from the development of independent thinking and the ability to think backward to the uses of what seems boring and the reversal of thinking between the physical and spiritual worlds and from the physiology of dreams to living into nature and the spiritual dimension of various foods we eat As always in his lectures to the workers Steiner's style is clear direct and accessible This volume is a translation from German of four lectures from *Rhythmen im Kosmos und im Menschenwesen Wie kommt man zum Schauen der geistigen Welt* GA 350

The National Union Catalog, Pre-1956 Imprints, 1976 [Art History as a Reflection of Inner Spiritual Impulses](#) Rudolf Steiner, 2016-06-01 13 slide presentations Dornach Oct 8 1916 Oct 29 1917 CW 292 I am going to show you a series of reproductions of slides from a period in art history to which the human mind will probably always return to contemplate and consider for if we consider history as a reflection of inner spiritual impulses it is precisely in this evolutionary moment that we see certain human circumstances ones that are among the deepest and most decisive for the outer course of human history expressed through a relationship to art Rudolf Steiner Rudolf Steiner understood that the history of art is a field in which the evolution of consciousness is symptomatically and transparently revealed This informal sequence of thirteen lectures was given during the darkest hours of World War I It was a moment

when the negative consequences of what he called the age of the consciousness soul which began around 1417 were made most terribly apparent In these lectures he sought to provide an antidote to pessimism After describing the movement of consciousness from Greece into Rome coupled with influences from the Orthodox East he showed how these influences transformed as the Middle Ages became the Renaissance The process that begins with Cimabue and Giotto develops deepens and becomes more conscious in the great Renaissance masters Leonardo Michelangelo and Raphael Then this movement continues with the Northern masters Dürer and Holbein as well as the German tradition One entire lecture is devoted to Rembrandt followed by one on Dutch and Flemish paintings Themes are woven together to show how past epochs of consciousness and art live again in our consciousness soul period Replete with interesting information and more than 600 color and black and white images these lectures are rich and dense with ideas enabling us to understand both the art of the Renaissance and the transformation of consciousness it announced These lectures demonstrate to paraphrase Shelley that artists truly are the unacknowledged legislators of the age Art History as a Reflection of Inner Spiritual Impulses is a translation from German of Kunstgeschichte als Abbild innerer geistiger Impulse GA 292 Rudolf Steiner Verlag 2000
