Exploring Cultural History Melissa Calaresu,Joan-Pau Rubies,Filippo de

Vivo,2016-12-05 Over the past 30 years cultural history has moved from the periphery to the centre of historical studies profoundly influencing the way we look at and analyze all aspects of the past In this volume a distinguished group of international historians has come together to consider the rise of cultural history in general and to highlight the particular role played in this rise by Peter Burke the first professor of Cultural History at the University of Cambridge and one of the most prolific and influential authors in the field Reflecting the many and varied interests of Peter Burke the essays in this volume cover a broad range of topics geographies and chronologies Grouped into four sections Historical Anthropology Politics and Communication Images and Cultural Encounters the collection explores the boundaries and possibilities of cultural history each essay presenting an opportunity to engage with the wider issues of the methods and problems of cultural history and with Peter Burke's contributions to each chosen theme Taken as a whole the collection shows how cultural history has enriched the ways in which we understand the traditional fields of political economic literary and military history and permeates much of what we now understand as social history It also demonstrates how cultural history is now at the heart of the coming together of traditional disciplines providing a meeting ground for a variety of interests and methodologies Offering a wide international perspective this volume complements another Ashgate publication Popular Culture in Early Modern England which focuses on Peter Burke's influence on the study of popular culture in English history

The Cambridge History of Christianity: Volume 9, World Christianities C.1914-c.2000 Hugh McLeod,2006-01-12

A comprehensive history of Christianity in the century when it truly became a global religion

Beyond Christendom Jehu Hanciles,2008 Hanciles does yeoman work in part one synthesizing studies on the impact of globalization revealing that its outcomes will likely not be determined by the Euro American heartlands that sparked this movement Instead in parts two he shows that migration in general is having an enormous effect on shaping a new world order and in part three Mobile Faith he advances the case for the migration of Christians as carrying within it the seeds of renewal for the whole church and also the potential to reshape church state and religion and culture relations globally

Christianity and European Culture (Selections from the Work of Christopher Dawson) Christopher Dawson,1998-09 This book provides a comprehensive

introduction to the development of Dawson's thinking on questions that remain of contemporary importance *Josephus, Paul, and the Fate of Early Christianity* F. B. A. Asiedu, 2019-03-01 Flavius Josephus the priest from Jerusalem who was affiliated with the Pharisees is our most important source for Jewish life in the first century His notice about the death of James the brother of Jesus suggests that Josephus knew about the followers of Jesus in Jerusalem and in Judaea In Rome where he lived for the remainder of his life after the Jewish War a group of Christians appear to have flourished if 1 Clement is any indication Josephus however says extremely little about the Christians in Judaea and nothing about those in Rome He also does not reference Paul the apostle a former Pharisee who was a contemporary of Josephus's father in Jerusalem even though according to Acts Paul and his activities were known to two successive Roman governors procurators of Judaea Marcus Antonius Felix and Porcius Festus and to King Herod Agrippa II and his sisters Berenice and Drusilla The knowledge of the Herodians in particular puts Josephus's silence about Paul in an interesting light suggesting that it may have been deliberate In addition Josephus's writings bear very little witness to other contemporaries in Rome so much so that if we were dependent on Josephus alone we might conclude that many of those historical characters either did not exist or had little or no impact in the first century Asiedu comments on the state of life in Rome during the reign of the Emperor Domitian and how both Josephus and the Christians who produced 1 Clement coped with the regime as other contemporaries among whom he considers Martial Tacitus Pliny the Younger and others did He argues that most of Josephus's contemporaries practiced different kinds of silences in bearing witness to the world around them Consequently the absence of references to Jews or Christians in Roman writers of the last three decades of the first century including Josephus should not be taken as proof of their non existence in Flavian Rome [The Changing Face of Christianity](#) Lamin O. Sanneh, Joel A. Carpenter, 2005 The questions and answers about Christianity and its contemporary mission now being formed in the African churches will have enormous influence in the years to come This volume offers nine new essays addressing this sea change and its importance for the future of Christianity *Christianity* Frederick W. Norris, 2014-10-01 A detailed chronological guide tracing the geographical and social development of Christian communities around the world covering many key issues including the Crusades and the fervent evangelism of missionary movements over the last five hundred years
