Christian Ethics The End Of The Law:

Christian Ethics David S. Cunningham, 2008-03-03 A biblical historical philosophical and theological guide to the field of Christian ethics Written in an accessible and animated style this is the essential text for students of Ethics **The End of the Law** Jason C. Meyer, 2009-09-01 A study of Paul's theology in the Bible focusing on his view of the old covenant God made with Israel and the new covenant Jesus announced at the Last Supper **Christianity, Ethics and the Law** Zachary R. Calo, Joshua Neoh, A. Keith Thompson, 2022-12-30 This book examines how Christian love can inform legal thought The work introduces love as a way to advance the emergent conversation between constructive theology and jurisprudence that will also inform conversations in philosophy and political theory Love is the central category for Christian ethical understanding Yet the growing field of law and religion and relatedly law and theology rarely addresses how love can shape our understanding of law This reflects in part a common assumption that law and love stand in necessary tension Love applies to the private and the personal Law by contrast applies to the public and the political realms governed by power It is thus a mistake to envisage love as having anything but a negative relationship to law This conclusion continues to govern Christian understandings of the meaning and vocation of law The animating idea of this volume is that the concept of love can and should inform Christian legal thought The project approaches this task from the perspective of both historical and constructive theology Various contributions examine how such thinkers as Augustine Aquinas and Calvin utilised love in their legal thought These essays highlight often neglected aspects of the Christian tradition Other contributions examine Christian love in light of contemporary legal topics including civility forgiveness and secularism Love the book proposes not only matters for law but can transform the terms on which Christians understand and engage it The book will be of interest to academics and researchers working in the areas of legal theory law and religion law and philosophy legal history theology and religious studies and political theory Traditional Christian Ethics David W. T. Brattston, 2014 Volume One of Traditional Christian Ethics describes the terminology discusses popular approaches to ethical decision making today illustrates that the earliest Christians conducted themselves in accordance with a large number of specific moral rules states the method of this set of books for reconstructing the content of early Christian ethics law as attested before the devastating epidemic and mass apostasy of AD 249-251 gives reasons for regarding this as the terminal date and provides a guide to using the lists At a number of points this volume deals with objections to its theses Volume One also furnishes you with complete information as to where you can find and look up the ancient sources cited in translation Traditional Christian Ethics will help you solve problems in moral decision making when Scripture is unclear or silent You can solve them through its comprehensive itemized concordances of citations to precepts of Christian ethics from all translated ancient texts Its sources possess unassailable authority that cannot be fabricated and are persuasive among most Christian denominations Preachers and professional scholars will find them invaluable as a starting point in preparing their own sermons books

articles and essays on specific points of ethics **Christian Ethics, Second Edition** J. Philip Wogaman, 2010-12-24 This updated survey of Christian ethics addresses major thinkers movements and issues from the early church to the present A broad range of topics is discussed including the biblical and philosophical legacies of Christian ethics and ethics through the early medieval Reformation Enlightenment and modern eras This new edition contains more extensive discussions of ethics in the twentieth century including Vatican II ecumenical social ethics and Orthodox Christian ethics A new section Toward the Third Millennium looks at the issues we will face in the coming decades including medical scientific and political dilemmas and issues of terrorism war and peace **Introducing Christian Ethics** Scott Rae, 2016-08-16 Introducing Christian Ethics helps Christians form a sound basis for making ethical decisions in today s complex postmodern world Raising 14 key ethical questions on today s most pressing issues including abortion war sexual ethics capital punishment and more Scott Rae guides his readers in making moral choices wisely Based on the best selling college and seminary ethics textbook Moral Choices this book distills nearly two decades of teaching and study into a succinct and user friendly volume It is an ideal primer for pastors students and everyday Christians who desire engagement with the world around them in an intelligent and informed manner Teaching and study resources for the book including additional video clips based on the questions corresponding to each chapter make it ideal for use in the classroom as well as for pastors and for teaching settings within the church Resources are available through ZondervanAcademic.com [Christian Ethics](#) Isma'il Ragi A. al Faruqi, 1967-01-01 **The Virtue of Bonhoeffer's Ethics** Jennifer Moberly, 2013-06-19 Does Dietrich Bonhoeffer s Ethics have any affinities with what we have now come to call virtue ethics If so what is the relationship between those affinities and the more widely recognized influence of Karl Barth Moberly seeks to answer these questions through close analysis of the Ethics and engagement with other interpreters of Bonhoeffer while discussing the nature of virtue ethics in a Christian context The answers may be surprising but they are certainly rewarding for anyone wanting to better understand Bonhoeffer and to see how his work could be helpful for current ethical debates *On Teaching and Learning Christian Ethics* D. Stephen Long, 2024 This book addresses what it means to teach and learn ethics While teaching ethics is universally applauded how one goes about it is much more difficult and contested than is often recognized The approach of the work is historical philosophical and theological It begins with the historical transformation in the mid nineteenth century by Henry Sidgwick who rejected establishing ethics on theology or metaphysics G E Moore John Rawls Thomas Hurka Bart Schultz and Peter Singer later explicitly developed ethics indebted to Sidgwick However G E M Anscombe and Philippa Foot s important interventions in modern moral philosophy opened new possibilities for teaching and learning ethics that bear strong resemblances to pre Sidgwick moral philosophy The common thread between them is Thomas Aquinas who had a different understanding of human action than Sidgwick For Aquinas Foot and Anscombe ethics does not concern a procedure to guide action to what is right or what ought to be but exists within a metaphysical and theological realm in which the good is more

basic than the right The good is attractive so desire for it is an essential element of the moral life
